INTERIM REPORT

2023

NORINCHUKIN

Our work at The Norinchukin Bank won't change the world overnight.

Our focus is on the agriculture, fishery and forestry industries.

This means that nature is our partner,
and nothing in nature bears fruit overnight.

Industries in this sector don't make things

—they produce and nurture life as a legacy for future generations.

This is precisely why we maintain a century-long dedication to serving those who sustain these industries and their local communities, no matter how small the scale of their operations.

And as the sole financial institution wholly devoted to this sector—the very cornerstone of our nation, we strive consistently to generate solid outcomes in the global financial markets.

But that is no longer enough.

We must take on a greater role than ever before so that the agriculture, fishery and forestry industries continue developing in response to the changing times.

We must harness our financial knowledge to make new contributions that extended beyond our past functions and scope. We must do our utmost to address on-the-ground issues. We must respond to the needs not only of producers, but also to those of processors, distributors and consumers.

The life generated by the agriculture, fishery and forestry industries sprouts the workings of all life well into the future.

Now is the time for each and every one of us to give our all. We aim to make the chain of life that connects us to the future more bounteous and more certain.

Dedicated to sustaining all life.

Forward-Looking Statements

This report contains information about the financial condition and performance of the Bank as of September 30, 2023 (unless otherwise stated), as well as forward-looking statements pertaining to the forecasts, estimations, prospects, business plans, targets, etc., of the Bank. The forward-looking statements are based on our current expectations and are subject to risks and uncertainties that might affect our businesses and could cause actual results to differ materially from those currently anticipated.

In this report, agriculture, fishery and forestry are collectively referred to as "AFF," Japan Agricultural Cooperatives are referred to as JA, Japan Fishery Cooperatives as JF and Japan Forest Owners' Cooperatives as JForest.

Message from the Management

Report on Financial Statements for the First Half of Fiscal 2023

YAMANO Toru

Chairman of the Supervisory Committee

OKU Kazuto

President and Chief Executive Officer

We would like to sincerely thank all our stakeholders for supporting the day-to-day operations of The Norinchukin Bank ("the Bank").

The vision set forth under the Medium-Term Management Plan (FY2019–FY2023) of the Bank is to "become the leading bank that supports the agriculture, fishery and forestry ("AFF") industries, food production and consumption, and the daily lives of local communities." In fiscal 2023, by making the pursuit of this vision its perpetual endeavor, the Bank is proceeding steadily with its business operations.

During the first half of fiscal 2023, the financial markets faced rising interest rates mainly in the United States and Europe, as concerns continued about inflation rates hovering high against a backdrop of persistent employment and consumer demand, although the pace of price increases slowed due to monetary tightening via interest rate hikes by central banks in various countries. Stock markets remained steady, and the foreign exchange market saw a significant appreciation of the dollar against the yen due to differences in monetary policy between Japan and the United States.

As this volatile and uncertain market environment continues, we have conducted financial operations, prioritizing prudential soundness. As a result, in the first half of fiscal 2023, the Bank secured Consolidated Ordinary Profits of ¥185.5 billion, as well as a Consolidated Capital Adequacy Ratio as represented by a Common Equity Tier 1 Capital Ratio of 14.02%, a Tier 1 Capital Ratio of 18.12%, and a Total Capital Ratio of 18.13%. As the continuation of volatile and uncertain economic and financial environments is expected, the Bank will continue to engage in appropriate financial management.

Looking at business operations, the Bank is determined to continue to fulfill its overall mission of being committed to the development of the AFF industries in line with its Purpose. To achieve that, the Bank will steadily implement five specific missions: contribute to the global environment; contribute to the AFF industries and local communities; enhance the members' management base; secure a sustainable financial/profit base; and maximize organizational vitality. These missions will be pursued in alliance with all the cooperative groups, jointly with JA Bank Medium-Term Management Strategies, JF Marine Bank Medium-Term Management Strategies, and the JForest Cooperatives Action Policy. Moreover, the Bank will steadily implement continuous self-reform as a member of JA Group.

JA Bank, JF Marine Bank, JForest Group, and the Bank will continue to perform their roles and functions with the goal of becoming financial institutions and organizations that win the confidence of their customers, and contribute to the advancement of the AFF industries and their rural communities and the resolution of environmental and social issues.

Global price increases due to changes in international situations have had a significant impact on many industries including the AFF industries. The Bank will continue to provide maximum support for the various AFF industry-related stakeholders affected by this problem, as the mission of a financial institution that operates in the foundational AFF industries and related local communities.

Finally, we would like to ask for your continued support for JA Bank, JF Marine Bank, JForest Group, and The Norinchukin Bank.

January 2024

Financial Results for the First Half of Fiscal 2023

Income

On a consolidated basis, Ordinary Profits* came to \$185.5 billion, down \$0.9 billion on a year-over-year basis, and Profit Attributable to Owners of Parent was \$144.3 billion, down \$25.4 billion on a year-over-year basis.

On a non-consolidated basis, Ordinary Profits came to ¥176.9 billion, down ¥6.2 billion on a year-over-year basis, and Net Income was ¥141.2 billion, down ¥29.7 billion on a year-over-year basis.

*Ordinary Profits represent Ordinary Income less Ordinary Expenses.

Ordinary Income represents Total Income less certain special income, and Ordinary Expenses represent Total Expenses less certain special expenses.

■ Balance of Assets and Liabilities

On a consolidated basis, Total Assets at the end of the first half of fiscal 2023 were ¥101,953.9 billion, up ¥7,448.9 billion from the previous fiscal year-end. Total Net Assets came to ¥4,704.2 billion, down ¥969.2

billion from the previous fiscal year-end.

On a non-consolidated basis, Total Assets were ¥98,691.6 billion, up ¥7,266.2 billion from the previous fiscal year-end. On the assets side, Loans and Bills Discounted were ¥17,318.3 billion, and Securities were ¥44,431.9 billion. On the liabilities side, Deposits amounted to ¥65,289.1 billion and Debentures were ¥435.2 billion.

■ Capital Adequacy Ratio (Basel III Standard)

On a consolidated basis, the Bank's Common Equity Tier 1 Capital Ratio was 14.02%, its Tier 1 Capital Ratio was 18.12%, and its Total Capital Ratio was 18.13%.

On a non-consolidated basis, the Bank's Common Equity Tier 1 Capital Ratio was 13.66%, its Tier 1 Capital Ratio was 17.85%, and its Total Capital Ratio was 17.86%.

^{2.} The calculation of the Bank's Non-Consolidated BIS Capital Adequacy Ratio is based on the formula found in Notification No. 4 of the Financial Services Agency and the Ministry of Agriculture, Forestry and Fisheries (Standards for Judging the Soundness of Management of the Norinchukin Bank) issued in 2006.

The Norinchukin Bank's Vision and Medium/Long-Term Goals FY2030

Sustainability Management Initiatives

Sustainability Management Initiatives

Food shortages due to the globally rising population, labor shortages in advanced economies due to aging and shrinking demography, climate change caused by global warming, problems of human rights, and a loss of biodiversity: These increasingly serious issues affect the sustainability of the AFF industries in which we operate. Against this backdrop, corporations are expected to take measures to address such environmental and social issues.

Based on an understanding of such global trends, the Bank performs initiatives of sustainability management to address global-level issues through its business operations, based on discussions at the Sustainability Committee, which operates under the Board of Directors. Toward the Medium/Long-Term Goals 2030 to accomplish its Purpose, the Bank engages in efforts to realize a sustainable society.

Initiatives to Reduce GHG Emissions

The Bank joined the Net Zero Banking Alliance (NZBA) in March 2023 and announced its commitment to achieve 2050 Net Zero. Through engagement with our investees and borrowers to reduce GHG emissions, we are working to provide solutions for decarbonization, such as sustainable finance initiatives and

GHG measurement support services in collaboration with external companies and others. In addition, we are working with JForest members to restore and reforest devastated private forests to secure CO₂ absorption.

The Bank's GHG emissions were 16,196 tCO₂ as of March 2023.

• Initiatives to Increase the Income of Farmers, Fishermen, and Foresters

The Bank engages in consulting activities to address management issues faced by AFF corporations and leaders, and in supporting the establishment of value chains by

investing in and financing food- and agriculture-related companies, etc. In fiscal 2022, consulting services were provided to 301 such corporations/leaders via JA Bank.

Sustainable Finance Initiatives

The Bank conducted new sustainable finance with an accumulated total of ¥6.2 trillion through the first half of fiscal 2023, which represents about 62% progress

toward the medium/long-term goal of ¥10 trillion, a good start toward the goal.

Examples of Sustainable Finance Initiatives

Transition loans by a syndicate of JA Bank members

JA Bank members formed a syndicate to offer transition loans to electric power companies' efforts to reduce GHG emissions under their long-term strategies toward decarbonization.

Green loans for logistics companies

Green loans were offered to cold chain logistics companies for the construction of new warehouses with environmentally friendly features, including solar panels and other energy-saving measures.

Investment in Sustainability
Awareness Bonds for natural
disaster risk management

Invested in the Sustainability Awareness Bonds issued by the European Investment Bank. Through this investment, the Bank provided funds to develop and maintain the infrastructure that helps ensure natural disaster risk management, thereby contributing to building safe and sustainable communities.

Natural Capital and Biodiversity Initiatives

As represented by the announcement of the recommendations of the Taskforce on Nature-related Financial Disclosures (TNFD) in September 2023, natural capital and biodiversity initiatives are increasingly important on a global scale.

HIDESHIMA Hirotaka, Executive Advisor of the Bank, serves as a member of the TNFD, contributing to the development and dissemination of global disclosure rules. In addition, the Bank declared its adoption of the TNFD recommendations in November 2023. The Bank will continue its efforts to enhance the sophistication of disclosure by achieving better understanding of the dependence, impact, risks, and opportunities related to natural capital and biodiversity, and promoting the provision of solutions to its business partners.

Initiatives to promote Diversity & Inclusion

Through multifaceted efforts such as providing support for a balance between work and childcare, promoting work-style reforms, and encouraging male employees to take childcare leave, we are promoting initiatives to allow the active engagement of various employees, including efforts to increase the ratio of

women in managerial positions.

The Bank compiled such efforts into the "Diversity & Inclusion Book," which was published in July 2023. (https://www.nochubank.or.jp/en/sustainability/social/diversity/)

Revitalization of Local Communities

Promoting the Hometown Co-creation Business

The Bank launched the "Hometown Co-creation Business" in fiscal 2022 to support community revitalization measures initiated by JAs in cooperation with related local parties. By implementing the community revitalization measures tailored to local issues and circumstances, JA Bank aims to fulfill its unique financial intermediary function.

Smartphone Classes Aimed at Eliminating the Digital Divide Throughout the Country

The presence of digital services in our daily lives is rapidly increasing. Smartphones have become an increasingly important infrastructure tool in individuals' lives. Since July 2021, the Bank has operated the "JA Smartphone Class" nationwide together with JA Zenchu, in collaboration with a leading smartphone operator, to meet the needs of local residents. In fiscal 2022, about 3,500 classes were held around the nation. We will make continued efforts to eliminate the digital divide by offering JA facilities nationwide to serve as venues for digital experiences.

Training of Next-Generation Farm Operators

The Bank encourages the training of next-generation farm operators through the Japan Institute of Agricultural Management, operated by AgriFuture Japan of which the Bank is the main sponsor. Since the opening of the institute in 2013, 119 students have graduated and begun farming nationwide.

Celebrating its 10th anniversary in April 2023, the Institute began an online school to expand the scope of agricultural management education. The institute will continue to provide new value to the agricultural industry by changing its curriculum at the Shinagawa school in April 2024 to foster innovators in the agribusiness field.

Stronger Collaboration with the Japan Agricultural Corporations Association

In February 2014, the Bank entered into a comprehensive partnership agreement with the Japan Agricultural Corporations Association, a public interest incorporated association, consisting of pioneering agricultural corporation members nationwide. By utilizing the Bank's network, the Bank provides a wide range of support for the creation of new customers and the export of agricultural and livestock products toward solving issues that the association's members face.

Agricultural, Forestry, and Fisheries Future Fund

To support initiatives of agricultural, fishery, and forestry workers/business entities, the Bank established the "Agricultural, Forestry, and Fisheries Future Fund" in 2014, to which the Bank contributed ¥20.0 billion. The Fund has provided subsidies for 66 projects.

Initiatives to Donate Food and Farming Study Materials

Toward the development of local communities, the Bank supports and encourages initiatives such as donating study materials on the theme of agriculture and food for fifth graders in primary schools. Since fiscal 2008, the Bank has distributed more than 20 million books cumulatively to primary schools nationwide and Japanese schools overseas. In fiscal 2023, we donated about 1.3 million books.

Wood Solution Network

The Bank operates the Wood Solution Network (WSN), which consists of lumber-related companies and groups, in liaison with an endowed research department studying lumber-using systems at the Graduate School of Agricultural and Life Sciences, the University of Tokyo. The aim of WSN activities is to achieve the knowledge and wisdom to tackle challenges and promote the expansion of lumber use. For the third *cours*, we have selected the SDGs, the significance of lumber use, and regional economic promotion as the themes for promoting our activities.

Expand Domestic Lumber Use and Provide Wood Use Education

As support for initiatives that contribute to the expansion of domestic lumber use and the development of forests and the forestry industry, the Bank has created and donated wood products, sponsored tree-planting events, and subsidized wood-use education activities, in alliance with JForest and its cooperative organizations.

Nochu Potential Forest Productivity Fund

Established in 2005, this fund—which had been operated as the Norinchukin 80th Anniversary Forest Rejuvenation Fund until 2013—subsidized 123 projects nationwide over 18,679 hectares valued at ¥2.51 billion by the end of fiscal 2022. This fund contributes to the regeneration of degraded privately owned forests across the country by subsidizing forward-looking projects that aim to maintain the public benefits and multiple sustainable functions of forests.

Establishment of a one-stop service platform that provides end-to-end support from creation to sales of forest carbon credits

In collaboration with the JForest Group, the Bank launched a platform for forest carbon credits at the end of March 2023 to contribute to promoting green growth in the field of forests and forestry and realizing carbon neu-

trality. The platform will provide one-stop service for the smooth creation of forest carbon credits by JForest nationwide and match cooperatives with companies wishing to purchase credits.

Support Project for JF Women's Groups/ Youth Groups

To support the activities of JF Women's Groups/Youth Groups and maintain and rejuvenate the foundation of local fishery businesses, since fiscal 2013 the Bank has subsidized cooperatives' campaign activities and expenses for training sessions related to life plan support.

In addition, in alliance with *Umitonagisa*, a public fund for environmental beautification, and to address oil contamination, the Bank has supplied cleaning tools for JF to support coastal cleaning activities.

JA Bank's Agriculture Financing

Lending to Agricultural Corporations

JA Bank supports farmers' agricultural management and livelihoods by providing various types of loans. As of March 31, 2023, JA Bank's outstanding balance of agricultural loans was ¥2,064.3 billion (of which loans to farmers amounted to ¥1,273.7 billion). The outstanding balance of loans in trust of Japan Finance Corporation and other entities came to ¥610.5 billion.

Outstanding Balance of Agricultural Loans, by Type

(Billions of Yen)

Type	March 31, 2023
Direct agricultural loans 1	1,664.0
Agricultural policy-based loans ²	400.3
Agriculture Modernization Loans	205.3
Other policy-based loans ³	195.0
Total	2,064.3

Equity Financing to Agricultural Corporations

The Agribusiness Investment & Consultation Co., Ltd., was established in October 2002 by the JA Group jointly with Japan Finance Corporation to invest in agricultural corporations. The company aims to contribute to the sustainable development of the

Notes: 1. "Direct agricultural loans" are non-policy-based loans funded by JA Bank.

- "Agricultural policy-based loans" refer to: (1) those financed directly or indirectly by local authorities; and (2) those provided by JA Bank at a low interest rate based on interest subsidies, etc., from local authorities.
- "Other policy-based loans" include agricultural management improvement promotion loans (New Super S Fund) and agricultural management assistance support loans.
- 4. Of the "direct agricultural loans" funded by JA Bank, the outstanding balance of loans of The Norinchukin Bank excludes the source fund for financing facilities extended to JA Bank, such as the Bank of Japan's loan support program and other policy-based loans.

Outstanding Balance of Agricultural Loans in Trust

Notes to the Consolidated Financial Statements (Unaudited)

The Norinchukin Bank and Subsidiaries

1. Basis of Presentation

The consolidated financial statements have been prepared based on the accounting records maintained by The Norinchukin Bank ("the Bank") and its consolidated subsidiaries in conformity with accounting principles and practices generally accepted in Japan, that are different in certain respects from the application and disclosure requirements of International Financial Reporting Standards.

The consolidated financial statements are intended only to present the consolidated financial position and results of operations and cash flows in accordance with accounting principles and practices generally accepted in Japan.

Amounts in U.S. dollars are included solely for the convenience of readers. The exchange rate of \(\xi\)149.57=U.S.\(\xi\)1, the approximate rate of exchange prevailing on September 30, 2023, has been used for translation purposes. The inclusion of such amounts is not intended to imply that Japanese yen amounts have been, or could be, readily converted, realized or settled in U.S. dollars at the aforementioned rate or at any other rate.

The yen and U.S. dollars figures disclosed in the consolidated financial statements are expressed in millions of yen and millions of U.S. dollars, and have been rounded down. Consequently, differences may exist between the sum of rounded figures and the totals listed in the interim report.

2. Summary of Significant Accounting Policies

(1) Principles of Consolidation

Scope of Consolidation

Subsidiaries

Subsidiaries are, in general, the companies in which the Bank 1) holds, directly and/or indirectly, more than 50% of the voting shares; 2) holds, directly and/or indirectly, 40% or more of the voting shares and, at the same time, exercises effective control over the decision-making body by directing business policy and deciding on financial and operating policies; or 3) holds more than 50% of the voting shares together with those entities that would vote or agree to vote with the Bank due to their close relationship with the Bank through sharing of personnel, provision of finance and technology and other relationships and, at the same time, has effective control over the decision-making body, unless evidence exists which shows that the Bank does not have such control.

The number of subsidiaries as of September 30, 2023 was 25, 22 of which were consolidated and the remaining 3 subsidiaries were unconsolidated.

The principal consolidated subsidiaries are as follows:

The Norinchukin Trust & Banking Co., Ltd.

Kyodo Housing Loan Co., Ltd.

Norinchukin Bank Europe N.V.

Newly established "Norinchukin Capital Strategic Co-Creation Fund I Investment Limited Partnership" was consolidated from the period ended September 30, 2023.

The principal unconsolidated subsidiary is as follows:

NORINCHUKIN INNOVATION FUND L.P.

The unconsolidated subsidiaries were excluded from the scope of consolidation, since its impact on the consolidated financial statements was not so material as to hinder a rational judgement of the financial position and results of operations in terms of Total Assets, Ordinary Income, Net Income, Retained Earnings and Accumulated Other Comprehensive Income.

There were two companies that were not subsidiaries although the Group owns more than 50% voting rights on its own account as of September 30, 2023.

The principal company is as follows:

Yamamoto Suisan Yusou Co., Ltd.

These companies were not subsidiaries because the objective of the Group to own the voting rights is only to earn capital gains through fostering new businesses and business revitalization and the investments meet the requirements prescribed in Paragraph 16 of "Implementation Guidance on Determining a Subsidiary and an Affiliate" (The Accounting Standards Board of Japan (ASBJ) Guidance No. 22).

The dates of the first half of fiscal year of consolidated subsidiaries are as follows:

Closing date: June 30, 2023 Number of subsidiaries: 10 Closing date: September 30, 2023 Number of subsidiaries: 12 The necessary adjustments have been made to the financial statements for any significant transactions that took place between their respective closing dates and the date of the consolidated financial statements.

Affiliates

Affiliates are, in general, the companies, other than subsidiaries, in which the Bank 1) holds, directly and/or indirectly, 20% or more of the voting shares; 2) holds, directly and/or indirectly, 15% or more of the voting shares and also is able to influence the decision-making body through sharing of personnel, provision of finance and technology, and other relationships; or 3) holds more than 20% of the voting shares together with those entities that would vote or agree to vote with the Bank due to their close relationship with the Bank through sharing of personnel, provision of finance and technology and other relationships and, at the same time, is able to influence the decision-making body in a material degree, unless evidence exists which shows that the Bank does not have such influence.

The number of affiliates as of September 30, 2023 was 6, all of which were accounted for by the equity method. Differences between the cost and the underlying net equity at fair value of investments in companies which are accounted for by the equity method have been amortized by the straight-line method over 20 years except for immaterial goodwill which are charged to income in the year of acquisition. Negative goodwill is credited to income in the year of acquisition. The principal affiliate accounted for by the equity method is as follows:

JA MITSUI LEASING, LTD.

(2) Transactions for Trading Purposes

Transactions for trading purposes are those seeking gains arising from short-term market movements or from the arbitrage opportunities in interest rates, foreign exchange rates and other market related indices. Such transactions are reported as Trading Assets or Trading Liabilities in the consolidated balance sheet on a trade date basis.

Gains and losses arising from transactions for trading purposes are recorded in Trading Income and Trading Expenses on the consolidated statement of operations.

Securities, monetary claims and certain other instruments held for trading purposes are valued at fair value prevailing at the end of the period. Derivatives held for trading purposes, such as swaps, futures and options, are valued on the assumption that they were settled at the end of the period.

Trading Income and Trading Expenses include interest received and paid in the period, gains or losses resulting from any change in the fair value of securities and monetary claims from the end of the previous fiscal year and gains or losses of derivatives resulting from any change in the fair value, which is determined assuming they were settled at the end of the period, from the end of the previous fiscal year.

Derivatives are measured at fair value based on net assets or liabilities after offsetting financial assets and financial liabilities with respect to specific market risk or specific credit risk.

(3) Financial Instruments

a. Securities

Held-to-maturity debt securities are valued at amortized cost (straight-line method), as determined by the moving average method.

Other securities are valued at fair value (the cost of securities sold is calculated by the moving average method). Stocks and others which are no market prices ("Stocks and others with no market prices") are valued at cost determined by the moving average method.

Net Unrealized Gains or Losses on Other Securities, net of taxes, are reported separately in Net Assets.

Securities included in Money Held in Trust are valued using the same methods described in (2) and (3) a. above.

b. Derivatives

Derivative transactions (other than transactions for trading purposes) are recorded at fair value.

The fair value of Derivatives is calculated based on net assets or liabilities after offsetting financial assets and financial liabilities with respect to specific market risk or specific credit risk.

c. Hedge Accounting

(a) Hedge of Interest Rate Risk

The Bank applies the deferral method of hedge accounting to the hedge transactions to manage interest rate risk associated with various financial assets and liabilities, which is described in "Accounting and Auditing Treatment relating to the Adoption of 'Accounting for Financial Instruments' for Banks," issued by the Japanese Institute of Certified Public Accountants ("JICPA"), (JICPA Industry Committee Practical Guideline No. 24, issued on March 17, 2022). Hedge effectiveness of a fair value hedge is assessed by identified groups of hedged items, such as loans and deposits, and the corresponding groups of hedging instruments, such as interest rate swaps within the same maturity bucket. Hedge effectiveness of a cash flow hedge is assessed based on the correlation of the interest rate risk indicators of the hedged items and that of the hedging instruments.

(b) Hedge of Foreign Exchange Rate Risk

The Bank applies the deferral method of hedge accounting to the hedge transactions to manage foreign exchange rate risk arising from various financial assets and liabilities denominated in foreign currencies, which is described in "Accounting and Auditing Treatment relating to Accounting for Foreign Currency Transactions in the Banking Industry" (JICPA Industry Committee Practical Guideline No. 25, issued on October 8, 2020). Hedge effectiveness is assessed by reviewing whether the amount of the hedged items, such as financial monetary assets and liabilities denominated in foreign currencies, exceeds that of the hedging instruments, such as currency swap or foreign exchange swap transactions, entered into to mitigate the foreign exchange rate risk arising from the hedged items.

The deferral method or the fair value method of hedge accounting is applied to the portfolio hedges of foreign exchange rate risks associated with securities denominated in foreign currencies (other than debt securities), provided that (1) the securities denominated in foreign currencies are identified as hedged items in advance, and (2) foreign currency amounts of spot and forward liabilities exceed those of the acquisition costs of the foreign currency securities designated as hedged items.

(c) Internal Derivative Transactions

Internal derivative transactions between trading accounts and banking accounts or inter-division transactions, which are designated as hedges, are not eliminated. The related gains and losses are recognized in the consolidated statement of operations or are deferred in the consolidated balance sheet in accordance with the hedge accounting rules, because the internal interest rate swap and currency swap transactions, that are designated as hedging instruments, are traded in a non-discretionary manner and are appropriately and ultimately covered by third party transactions, which are conducted in accordance with the standards stipulated in the JICPA Industry Committee Practical Guideline No. 24 and No. 25.

For certain other assets or liabilities, the Bank applies the deferral method or the accrual method of hedge accounting, as specifically permitted for certain interest rate swaps. Under the deferral method, the recognition of income or expenses associated with a hedging instrument is deferred to the period when the income or expense arising from the hedged item is recognized.

(d) Hedges Applied to "the Treatment of Hedge Accounting for Financial Instruments that Reference LIBOR"

As for Hedges mentioned above, all of hedges under "the Treatment of Hedge Accounting for Financial Instruments that Reference LIBOR" (ASBJ PITF No. 40 for Practical Solution, issued on March 17, 2022) are applied to the specific treatments designated by the PITF. Hedges applied to the PITF are as follows.

I Hedge Methods: The Deferral Method or The Accrual Method specifically permitted for certain interest rate swap

Hedge Instruments: Interest rate swaps

Hedged Items: Loans and Bill Discounted, Securities (Bonds) and others

Type of Hedge Transactions: Offsetting market movements

II Hedge Method: The Deferral Method

Hedge Instrument: Interest rate swaps

Hedged Items: Payables under Repurchase Agreements and others

Type of Hedge Transactions: Fixing cash flows

III Hedge Method: The Deferral Method

Hedge Instrument: Currency swaps

Hedged Items: Financial monetary assets and liabilities denominated in foreign currencies and others

Type of Hedge Transactions: Offsetting market movements

(4) Tangible Fixed Assets (other than Lease Assets)

a. Depreciation

Depreciation of Tangible Fixed Assets of the Bank is calculated using the declining-balance method. However, depreciation on buildings acquired on or after April 1, 1998 (excluding buildings and accompanying facilities) and buildings and accompanying facilities and structures acquired on or after April 1, 2016 are calculated using the straight-line method.

The useful lives of major Tangible Fixed Assets are as follows:

Buildings: 15 years to 50 years Others: 5 years to 15 years

Depreciation of Tangible Fixed Assets of the consolidated subsidiaries is primarily calculated using the declining-balance method over their estimated economic useful lives.

b. Land Revaluation

In accordance with the Law Concerning the Revaluation of Land, effective as of March 31, 1998, land used for business purposes was revaluated on March 31, 1998. Unrealized gains arising from revaluation, net of deferred tax, are disclosed as Revaluation Reserve for Land and included in Net Assets on the consolidated balance sheet. The related deferred tax assets or deferred tax liability is recorded as Deferred Tax Assets for Land Revaluation or Deferred Tax Liabilities for Land Revaluation.

The land prices used for the revaluation were reasonably calculated based on third-party appraisals in accordance with Article 2-5 of the enforcement ordinance for the Law Concerning the Revaluation of Land.

(5) Intangible Fixed Assets (other than Lease Assets)

Depreciation of Intangible Fixed Assets is calculated using the straight-line method.

The costs of software developed or obtained for internal use are capitalized and amortized over an estimated useful life of 5 years.

(6) Lease Assets

Depreciation of Lease Assets in Tangible Fixed Assets and Intangible Fixed Assets which are finance leases where the ownership of assets is not transferred to the lessees is calculated using the straight-line method over the lease term with zero residual value unless residual value is guaranteed by the corresponding lease contracts.

(7) Foreign Currency Translation

Assets and liabilities denominated in foreign currencies, and accounts of overseas branches are translated into Japanese yen primarily using the exchange rates in effect at the consolidated balance sheet date.

Assets and liabilities of the consolidated subsidiaries denominated in foreign currencies are translated into Japanese yen using the respective exchange rates in effect at the balance sheet date.

(8) Reserve for Possible Loan Losses

Reserve for Possible Loan Losses of the Bank is computed as follows:

a. Reserve for loans to debtors who are legally bankrupt under the Bankruptcy Law, Special Liquidation under Company Law or other similar laws ("debtors in bankruptcy") or debtors who are substantially bankrupt under those laws ("debtors in default") is provided based on the remaining book value of the loans after the direct write-off described below and the deduction of the amount expected to be collected through the disposals of collateral or the execution of guarantees.

With respect to loans to borrowers who are legally or substantially bankrupt and that are secured by collateral or guarantees, the remaining book value of the loan, after the deduction of the amount of collateral or the execution of guarantees, is directly written off. Direct write-offs were \(\frac{4}{9}\),145 million (\\$61 million) and \(\frac{4}{8}\),554 million for the period ended September 30, 2023 and the fiscal year ended March 31, 2023, respectively.

b. Reserve for loans to debtors who are not currently bankrupt, but are likely to become bankrupt ("doubtful debtors"), is determined after taking into account a comprehensively evaluated repayment ability of debtors after deducting the amount expected to be collected through the disposal of collateral or the execution of guarantees.

- c. Reserve for loans to debtors with restructured loans ("debtors under requirement of control") (see Note 5) and other debtors requiring close monitoring going forward ("other substandard debtors") is provided based on the Discounted Cash Flow method if the loan balance exceeds a specific amount and the future cash flows of the principal and interest of the loan can be reasonably estimated. Under the Discounted Cash Flow method, reserve is measured as the difference between the book value of the loan and its present value of expected future cash flows, discounted primarily by the contractual interest rate before the terms of the loan were restructured.
- d. Reserve for loans to "debtors under requirement of control" other than those indicated above, the Bank principally estimates expected losses for the next 3 years. Whereas "other substandard debtors" and debtors who maintain favorable operating conditions and who have no particular financial difficulties ("standard"), the Bank estimates expected losses for the next year. The expected losses are calculated by long-term averages of the historical loan-loss ratios based on past 1-or 3-year loan-loss experience and further adjusted for the risks identified based on future forecasts. Specifically, the reserve for possible loans losses is recorded, taking into account the current position in economic cycles and the likelihood of each scenario in light of future outlook, by referring to historical loan losses, based on the macroeconomic indicators (Indexes of Business Conditions (Composite Index (Coincident Index))) which are highly correlated to historical records of loan losses and the Bank's outlook for economic fluctuations. The future forecasts are approved by directors after consultation with a committee composed of management (the Risk Management Committee).
- e. Specific reserve for loans to certain countries with financial difficulties is provided based on the expected amount of losses taking into account the political, economic and other conditions in each country.

All claims are assessed by the Business Units based on the Bank's internal rules for the self-assessment of asset quality. The Asset Audit Department, which is independent from the Business Units, audits these self-assessments. Reserves described above are determined based on the results of these self-assessments.

Reserve for Possible Loan Losses for receivables of the Bank's consolidated subsidiaries is provided at the amount determined as necessary using the past default ratio. Reserve for Possible Loan Losses for problem receivables of the Bank's consolidated subsidiaries is provided by taking into account their recoverability and an estimate of uncollectible amount.

(9) Reserve for Possible Investment Losses

Reserve for Possible Investment Losses represents an amount determined to be necessary to cover the estimated loss from the investments, taking into account the financial condition and other factors of the issuer of the securities. There were no Reserve for Possible Investment Losses recorded as of September 30, 2023.

(10) Reserve for Bonus Payments

Reserve for Bonus Payments represents estimated cost of payment of employees' bonuses attributable to the period.

(11) Reserve for Directors' Retirement Benefits

Reserve for Directors' Retirement Benefits for the payments of retirement benefits for directors (including Executive Officers) and corporate auditors is recognized as the required amount accrued at the end of the period.

(12) Accounting Method for Retirement Benefits

In calculating retirement benefit obligations, the benefit formula basis is used for attributing expected retirement benefits to the end of the period.

Unrecognized prior service cost is amortized over a certain period (10 years) within the employees' average remaining service period using the straight-line method beginning in the fiscal year in which the difference has arisen.

Unrecognized actuarial differences are amortized over a certain period (10 years) within the employees' average remaining service period using the declining-balance method beginning in the fiscal year after the difference has arisen.

Some of the Bank's consolidated subsidiaries, in calculating Net Defined Benefit Liability and retirement benefit cost, adopt the simplified method whereby the retirement benefit obligations are calculated at an amount that would be paid if all eligible employees voluntarily retired at the end of the period.

(13) Accounting for Income Taxes

Income Taxes-Current and Income Taxes-Deferred for the period are calculated based upon assumption that reversal from or transfer to Reserve for Tax Basis Adjustments of Fixed Assets by the disposal of Retained Earnings is made at the end of the fiscal year.

(14) Scope of "Cash and Cash Equivalents" in the Consolidated Statement of Cash Flows

"Cash and Cash Equivalents" in the consolidated statement of cash flows represents cash, non-interest bearing due from banks and due from the Bank of Japan in Cash and Due from Banks on the consolidated balance sheet.

(15) Profit Attributable to Owners of Parent per Share

Profit Attributable to Owners of Parent per Share is computed based upon the weighted average number of shares outstanding during the period.

In calculating the Profit Attributable to Owners of Parent per Share for the six months ended September 30, 2023, the aggregate number of lower dividend rate stocks is deducted from the denominator.

In calculating the Profit Attributable to Owners of Parent per Share for the six months ended September 30, 2022, the aggregate number of lower dividend rate stocks and preferred stocks is deducted from the denominator.

(16) Accounting Principles and Procedures When Related Accounting Standards Are Not Clear

Profit and losses on cancellation of Investment Trust are accounted in "Interest and Dividends on Securities" on Profit and Loss Statement.

3. Securities

Total	¥17,901,803	¥17,414,105	\$119,688

5. Non Performing Loans Based on the Norinchukin Bank Act and the Financial Reconstruction Law

	Millions of Yen		Millions of U.S. Dollars	
	As of September 30, 2023	As of March 31, 2023	As of September 30, 2023	
Bankrupt and Quasi-Bankrupt Assets	¥ 6,118	¥ 5,312	\$ 40	
Doubtful Assets	70,567	60,990	471	
Loans Past Due for Three Months or More	401	515	2	
Restructured Loans	27,548	28,352	184	
Total	¥104,635	¥95,172	\$699	

- Notes: 1. These assets consist of those included in the accounts of bonds included in "Securities" (its principal's redemption and interest payments are guaranteed, in whole or in part, and the corporate bonds issue is limited to a private placement of the securities (Article 2, Paragraph 3 of the Financial Instruments and Exchange Act.)), "Loans," "Foreign Exchanges Assets," accrued interest income and suspense payment in "Other assets" and "Customers' Liabilities for Acceptances and Guarantees" on the consolidated balance sheet, and securities in the notes (Limited to those under a loan for use or lending agreement.) that are in case of loan.
 - 2. Bankrupt and Quasi-Bankrupt Assets are credits against debtors in bankruptcy due to the commencement of bankruptcy proceedings, the commencement of corporate reorganization proceedings, and the petition of rehabilitation proceedings, as well as credits of a similar nature.
 - 3. Doubtful Assets are credits that the debtor is not yet in a state of bankruptcy, but its financial position and business performance have deteriorated, and it is highly probable that principal's collection and interest on credits in accordance with the terms of the contract will not be received. These credits do not fall under the category of Bankrupt and Quasi-Bankrupt Assets.
 - 4. Loans Past Due for Three Months or More are loans on which payments of principal and/or interest have not been made for a period of three months or more since the next day following the first due date, and which are not included in Bankrupt and Quasi-Bankrupt Assets, or Doubtful Assets.
 - 5. Restructured loans are loans whereby its terms are modified in favor of the borrowers by reducing the interest rate, deferral of payments of interest or principal, waiving principal repayments, etc., in order to support the borrowers' rehabilitation and facilitate the collection of the loans, and which are not included in Bankrupt and Quasi-Bankrupt Assets, Doubtful Assets or Loans Past Due for Three Months or More.

6. Assets Pledged

Assets pledged as collateral comprise the following:

	Millions	Millions of Yen	
	As of September 30,	<i>'</i>	As of September 30,
	2023	2023	2023
Securities	¥13,997,272	¥11,244,349	\$93,583
Loans and Bills Discounted	1,797,245	1,473,284	12,016

Liabilities secured by the above assets are as follows:

	Millions	Millions of U.S. Dollars	
	As of September 30, 2023	As of March 31, 2023	As of September 30, 2023
Payables under Repurchase Agreements	¥13,766,007	¥10,353,399	\$92,037
Borrowed Money	1,780,478	1,754,279	11,903

In addition, as of September 30, 2023 and March 31, 2023, Securities (including transactions of Money Held in Trust) of ¥13,960,140 million (\$93,335 million) and ¥10,960,100 million, respectively, and Foreign Exchange Assets (including transactions of Money Held in Trust) of ¥33,063 million (\$221 million) and ¥28,801 million, respectively, were pledged as collateral for settlement of exchange and derivative transactions or as margins of futures transactions.

As of September 30, 2023 and March 31, 2023, initial margins of futures markets of \$174,359 million (\$1,165 million) and \$119,438 million, respectively, cash collateral paid for financial instruments of \$1,071,687 million (\$7,165 million) and \$155,671 million, respectively, other cash collateral paid of \$775,467 million (\$5,184 million) and \$616,020 million, respectively, and guarantee deposits of \$5,537 million (\$37 million) and \$5,218 million, respectively, were included in Other Assets.

7. Deposits

	Millions of Yen		Millions of U.S. Dollars	
	As of September 30, 2023	As of March 31, 2023	As of September 30, 2023	
Time Deposits	¥53,378,186	¥54,140,903	\$356,877	
Deposits at Notice	7,326	8,708	48	
Ordinary Deposits	6,246,710	4,784,825	41,764	
Current Deposits	70,081	65,223	468	
Other Deposits	5,598,640	4,809,788	37,431	
Total	¥65,300,944	¥63,809,449	\$436,591	

8. Borrowed Money

Borrowed Money includes subordinated borrowings of ¥1,316,972 million (\$8,805 million) and ¥1,316,972 million as of September 30, 2023 and March 31, 2023, respectively, which have a special agreement that requires the fulfillment of the payment obligations of such borrowing to be subordinated to other general liabilities.

9. Commitments to Overdrafts and Loans

Commitments related to overdrafts and loans represent agreements to extend overdrafts or loans up to the pre-agreed amount at the customer's request as long as no violation of the conditions stipulated in the commitment agreement exists. The amounts of undrawn commitments in relation to such agreements were \(\frac{\pmathbf{4}}{4}\),913,036 million (\(\frac{\pmathbf{3}}{3}\),847 million) and \(\frac{\pmathbf{4}}{4}\),620,214 million as of September 30, 2023 and March 31, 2023, respectively. The amounts of the undrawn commitments, which the Bank and its consolidated subsidiaries could cancel at any time without cause, were \(\frac{\pmathbf{2}}{2}\),805,641 million (\(\frac{\pmathbf{1}}{3}\),758 million) and \(\frac{\pmathbf{2}}{2}\),719,434 million as of September 30, 2023 and March 31, 2023, respectively.

The amount of undrawn commitments does not necessarily affect the future cash flow of the Bank and its consolidated subsidiaries because the majority of such agreements are terminated without being exercised. Most of these agreements have provisions which stipulate that the Bank and its consolidated subsidiaries may not extend the loan or may decrease the commitment when there are certain changes in the overall financial conditions, certain issues relating to collateral and other reasons. At the time of extending loans to customers, the Bank and its consolidated subsidiaries are able to request collateral in the form of premises or securities as necessary. After extending loans, the Bank and its consolidated subsidiaries periodically check the financial condition of its customers based on predefined policies and procedures and act to secure loans as necessary.

10. Securities Loaned

Securities include securities loaned under unsecured lending agreements (Saiken Taishaku Torihiki) totaling nothing as of September 30, 2023 and March 31, 2023.

Securities borrowed under unsecured borrowing agreements (Saiken Taishaku Torihiki) and securities purchased under resale agreements and cash-collateralized borrowing agreements and others, which can be sold or re-pledged by the Bank, include securities re-pledged of \(\xi\)1,415,699 million (\xi\)9,465 million) and \(\xi\)1,420,147 million as of September 30, 2023 and March 31, 2023, respectively, and include securities held without re-pledge of \(\xi\)138,037 million (\xi\)922 million) and \(\xi\)61,085 million as of September 30, 2023 and March 31, 2023, respectively. No such securities are re-loaned to the third parties.

11. Paid-in Capital

	Millions of Yen		Millions of U.S. Dollars	
	As of September 30,	As of March 31,	As of September 30,	
	2023	2023	2023	
Common Stock	¥4,015,198	¥4,015,198	\$26,844	
Other Stock	24,999	24,999	167	
Total	¥4,040,198	¥4,040,198	\$27,012	

The Common Stock account includes lower dividend rate stock with a total par value of \(\xi_3,589,481\) million (\\$23,998\) million) and \(\xi_3,589,481\) million as of September 30, 2023 and March 31, 2023, respectively.

Lower dividend rate stock is similar to regular common stock but has been issued on the condition that the dividend yield will be set below that relating to common stock.

The Other Stock of ¥24,999 million (\$167 million) was reclassified from preferred stock following the cancellation of preferred stock, in accordance with Article 15-1-1 of Act on Preferred Equity Investment by Cooperative Structured Financial Institution as of May 12, 1993.

12. Other Income

	Millions	of Yen	Millions of U.S. Dollars

16. Financial Instruments

(1) Disclosures Regarding the Fair Value of Financial Instruments and Other Items

Stocks and others with no market prices are excluded from the table below(ref. Note). In addition to this, Receivables under Resale Agreements, Cash and Due from Banks, Negotiable Certificates of Deposit, Call Money and Bills Sold, Payables under Repurchase Agreements, and Short-term Entrusted Funds, are omitted because these instruments are settled in a short period and then their fair values would approximate their carrying values.

"Consolidated Balance Sheet Amount," "Fair Value" and "Difference" as of September 30, 2023 and March 31, 2023 are as follows:

_		Millions of Yen		Millions of U.S. Dollars			
As of September 30, 2023	Consolidated Balance Sheet Amount	Fair Value	Difference	Consolidated Balance Sheet Amount	Fair Value	Difference	
Monetary Claims Bought	¥ 292,508	¥ 292,352	¥ (156)	\$ 1,955	\$ 1,954	\$ (1)

^{(*) 1.} Money Held in Trust and Loans and Bills Discounted are net of Reserve for Possible Loan Losses. Money Held in Trust is presented by net on the consolidated balance sheet as the reserve amounts are immaterial.

(Note) The following tables list Consolidated Balance Sheet Amount of Stocks and others with no market prices, Investments in Partnership and others as of September 30, 2023 and March 31, 2023:

"Securities" in "Disclosures Regarding the Fair Value of Financial Instruments and Other Items" excludes these financial instruments.

	Millions of Yen	Millions of U.S.
As of September 30, 2023	Millions of Ten	Dollars
Stocks and others with no market prices	¥ 219,772	\$1,469
Investments in Partnership and others (*)	1,012,165	6,767

^(*) Investments in Partnership are out of scope from the disclosure of the fair value measurement due to being applied to Article 24-16 of Implementation Guidance on Accounting Standard for Fair Value Measurement (ASBJ Guidance No. 31 on 17th June 2021).

As of March 31, 2023	Millions of Yen
Stocks and others with no market prices	¥ 203,594
Investments in Partnership and others (*)	1,235,145

^(*) Investments in Partnership are out of scope from the disclosure of the fair value measurement due to being applied to Article 24-16 of Implementation Guidance on Accounting Standard for Fair Value Measurement (ASBJ Guidance No. 31 on 17th June 2021).

(2) Disclosures Regarding the Fair Value of Financial Instruments and Other Items by Level within the Fair Value Hierarchy According to observability and significance of inputs used by calculating fair values, fair values for these financial instruments are classified into the following three-level hierarchy.

ance sheet as the reserve amounts are immaterial.

2. Derivative Instruments are excluded from Trading Assets.

^{3.} Derivative Instruments within Trading Assets, Trading Liabilities, Other Assets and Other Liabilities are shown by net position. Receivables and payables which arise from Derivative Instruments are shown on a net basis.

The fair value of certain interest rate swaps to which the accrual method of hedge accounting is applied, as specifically permitted for certain interest rate swaps, is reflected in fair value of Loans and Bills Discounted, Debentures and Borrowed Money as the hedging instruments are accounted for together with the Loans and Bills Discounted and other items.

- Level 1 Unadjusted quoted prices for identical instruments in active markets.
- Level 2 Observable inputs other than Level 1 prices that are either directly or indirectly observable for the financial instrument.
- Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the instruments.

If multiple inputs which have a significant impact on market value calculation are used, a financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Financial assets and liabilities whose fair values are equal to consolidated balance sheet amounts are as follows.

		Millions of Yen		Millions of U.S. Dollars

(Note 1) Calculation Methods and Inputs for the Fair Value of Financial Instruments are as follows:

Assets

Monetary Claims Bought

Monetary Claims Bought are valued and classified according to the same methods described in "Loans and Bills Discounted" and "Securities" below.

Trading Assets

Trading Securities are valued and classified according to the same methods described in "Securities" below.

Money Held in Trust

Loans and Bills Discounted and Securities included in Money Held in Trust are valued and classified according to the same methods described in "Loans and Bills Discounted" and "Securities" below.

Relevant notes concerning the fair value of Money Held in Trust of each classification are described in section 18. Fair Value of Money Held in Trust.

Securities

When unadjusted quoted prices are available in an active market, such securities are classified into Level 1 of the fair value hierarchy. Examples of Level 1 securities include listed equities and government bonds.

When quoted prices are available but not traded actively, such securities are classified into Level 2 of the fair value hierarchy.

Level 2 securities mainly include municipal bonds and corporate bonds. When quoted prices are not available, the Bank and its subsidiaries generally estimate fair values by using prices obtained from independent pricing vendors, or by using valuation technique such as Discount Cash Flow method. As for valuation, the Bank and its subsidiaries maximize the use of observable inputs. Inputs include default rates, recovery rates, prepayment rates and discount rates. Where significant inputs adopted to the fair value measurements for securities are unobservable, such securities are classified into Level 3 of the fair value hierarchy.

In addition to the factors mentioned above, probability of redemption or sale at net asset value are reflected on classification of the fair value hierarchy for Investment Trusts. Net asset value for certain Investment Trusts is adjusted by liquidity discount and such Investment Trust is classified into Level 3 of the fair value hierarchy.

Loans and Bills Discounted

The fair value of Loans and Bills Discounted with floating rates approximates the book value since it is repriced reflecting market interest fluctuations within a short period, unless the creditworthiness of the debtors has changed significantly after execution. Accordingly, the book value is deemed to be the fair value. As for Loans and Bills Discounted with fixed rates, the fair value is calculated according to the Discounted Cash Flow method. The main inputs include the default rates based on the current credit rating of the debtors, recovery rates, and other inputs. As for mortgages, the fair value is calculated according to the Discounted Cash Flow method. The main inputs include the default rates, recovery rates, prepayment rates and other inputs.

As for Loans and Bills Discounted to doubtful debtors and others, the fair value is calculated by the present value of expected future cash flows or the estimated recovery amount of collateral and guarantee.

With respect to Loans and Bills Discounted without stated maturity for which credit is extended up to the value of the collateral assets, the book value is deemed to approximate the fair value, taking into account expected maturities, interest rates and other terms. All of Loans and Bills Discounted are classified into Level 3 of the fair value hierarchy since significant inputs for the assets are unobservable.

Liabilities

Deposits

With respect to demand deposits, the amounts payable on demand as of the consolidated balance sheet date (the book value) are estimated at fair value. The fair value of time deposits with floating rates approximates the book value since it is repriced reflecting market interest rate fluctuations within a short period (1 year or less), unless the creditworthiness of the Bank and its consolidated subsidiaries has changed significantly. Accordingly, the fair value is deemed to be the book value. As for time deposits with fixed rates, the fair value is calculated according to the Discounted Cash Flow method, and these discount rates are the currently-applied deposit rates determined as interest rates similar to the market basis. Some contractual terms are short-term (1 year or less), and the fair value approximates the book value. Accordingly, the fair value is deemed to be the book value. All of the calculated fair values for deposits are classified into Level 2 of the fair value hierarchy.

Debentures

As for Debentures, the fair value is based on the quoted market price if available, or calculated according to the Discounted Cash Flow method. The main input of this method is the rate which would be applied if a similar debenture was issued. Debentures are classified into Level 2 of the fair value hierarchy considering the market liquidity for those.

Borrowed Money

The fair value of Borrowed Money with floating rates approximates the book value since it is repriced reflecting market interest rate fluctuations within a short period (1 year or less), unless the creditworthiness of the Bank and its consolidated subsidiaries has changed significantly. Accordingly, the book value is deemed to be the fair value. Therefore, Borrowed Money with floating rate is classified into Level 2 of the fair value hierarchy.

As for Borrowed Money with fixed rates, the fair value is calculated according to the Discounted Cash Flow method. The input of this method is the interest rate which would be applied to a similar borrowed money. Where unobservable inputs have a significant impact on the fair value for Borrowed Money with fixed rates, the instrument is classified into Level 3 of the fair value hierarchy. Where not, the instrument is classified into Level 2 of the fair value hierarchy. The fair value of the Borrowed Money within a year or less with fixed rates approximates the book value and then the fair value is deemed to be the book value. Such Borrowed Money is classified into Level 2 of the fair value hierarchy.

Derivative Instruments

When unadjusted quoted prices are available for Derivative instruments in an active market, such instruments are classified into Level 1 of the fair value hierarchy. Examples of these Derivative instruments include Bond Futures, Interest Rate Futures and others.

Where quoted market price is unavailable, the Bank estimates fair values for Derivative instruments by a net present value method, an option pricing model and other methods as appropriate. Main inputs used by valuation methods mentioned above are interest rates, foreign currency exchange rates, volatility and other variables. Further, the fair value for derivative instruments such as Swap and others is reflected on the price adjustment based on credit risk of counter parties and the Bank itself. Where unobservable inputs are not adopted or their impact is not significant on the fair value for Derivative instruments, such derivative instruments are classified into Level 2 of the fair value hierarchy. Derivatives that are evaluated using valuation techniques with significant unobservable inputs are classified into Level 3 of the fair value hierarchy.

Relevant notes regarding the fair value of derivative instruments are described in section 19. Fair Value of Derivative Instruments.

(Note 2) The Fair value of Level 3 for financial instruments recorded at fair value on the consolidated balance sheet is as follows Quantitative Information of Significant Unobservable Inputs about Level 3 Fair Value Measurements

Explanation of Market Value Evaluation Process

Supervisory Department for Fair Value Measurement in the Bank establishes guidelines and procedures for fair value and Fair Value Measurement Department calculates fair value in compliance with these guidelines and procedures. Assessment Department, which is independent from Fair Value Measurement Department verifies appropriateness of the calculation result of fair value, and the result of the verification is reported in the Risk Management Committee. Thus, the Bank confirms the appropriateness of guidelines and procedures for fair value measurement.

Moreover, as for fair value measurement, the Bank adopts pricing models which the most properly reflect on types, characteristics, and risks for individual financial instrument. Where market values obtained from independent pricing vendors are used, the Bank verifies the validity of the vendors' market values by means of appropriate approaches such as assessment of pricing models and inputs which the vendors adopt, comparison with fair values of similar financial instruments and others.

Explanation of an Impact on Fair Value in the Case of Changing Significant Unobservable Inputs

Securities Recognized for Revaluation Loss

Securities other than those for trading purposes (except Stocks and others with no market prices and Investments in Partnership) are revalued to their fair value, and the difference between the book value and the fair value is treated as a realized loss for the six months ended September 30, 2023 and the fiscal year ended March 31, 2023 ("revaluation loss"), if the fair value has significantly deteriorated from the book value unless a recovery in the fair value is deemed probable.

The amount of revaluation loss for the six months ended September 30, 2023 was ¥16 million (\$0 million), including ¥16 million (\$0 million) on Investment Trusts.

The amount of revaluation loss for the fiscal year ended March 31, 2023 was nil.

The criteria for determining whether the securities' fair value has "significantly deteriorated" are outlined as follows:

Securities whose fair values are equal to or less than 50% of their book value

Securities whose fair values remain between 50% (exclusive) and 70% (inclusive) of their book value for a certain period

18. Fair Value of Money Held in Trust

19. Fair Value of Derivative Instruments

(1) Derivative Instruments not accounted for as hedges

Regarding the derivative instruments which are not accounted for as hedge transactions, Contract Amount or Notional Amount, Fair Value and Unrealized Gain or Loss for each type of derivative transactions, respectively, at the consolidated balance sheet date, and determination of fair value are as follows.

Contract Amount or Notional Amount does not show by itself market risk of derivative instruments.

Capital Adequacy (Consolidated)

Disclosure Regarding Capital Adequacy and Features of Regulatory Capital Instruments

The Bank calculates its capital adequacy ratio based on the formula contained in Notification No. 4 of the 2006 Financial Services Agency and the Ministry of Agriculture, Forestry and Fisheries of Japan entitled "Standards for Judging the Soundness of Management of The Norinchukin Bank" (hereinafter, "Notification Regarding Capital Adequacy Ratio"). In addition, to calculate risk-weighted assets for credit risk, the Bank has adopted the "Advanced Internal Ratings-Based

Approach (A-IRB) (partially the Foundation Internal Ratings-Based Approach (F-IRB))."

The disclosure requirements for the Bank are provided in Notification No. 6 of the 2007 Financial Services Agency and the Ministry of Agriculture, Forestry and Fisheries of Japan entitled "Disclosure Items Related to Capital Adequacy of The Norinchukin Bank" (hereinafter, "Disclosure Notification"). These disclosures as well as the features of regulatory capital instruments can be found in the IR Library of the Bank's website at https://www.nochubank.or.jp/.

Remarks on Computation of the Consolidated Capital Adequacy Ratio -

Scope of Consolidation

• Reason for discrepancies between companies belonging to the Bank's group that are required to compute a consolidated capital adequacy ratio, as specified in the Notification Regarding Capital Adequacy Ratio, Article 3 (hereinafter, "the Consolidated Group") and the companies included in the scope of consolidation, based on "Ordinance on Terminology, Forms and Preparation Methods of Consolidated Financial Statement" under Ministerial Ordinance No. 28, issued by the Ministry of Finance in 1976:

Not applicable

- As of September 30, 2023, the Bank had 22 consolidated subsidiaries and firms. The names and principal lines of business of the primary subsidiaries are as follows:
 - 1. Norinchukin Trust & Banking Co., Ltd.: Trust and banking business
 - 2. Kyodo Housing Loan Co., Ltd.: Loans and guarantees for housing
- Companies belonging to the Consolidated Group but not included in the scope of consolidation:

Not applicable

- Companies not belonging to the Consolidated Group but included in the scope of consolidation:
 - Not applicable
- Affiliated companies engaged in financial service business that were subject to the provisions of Article 9 of the Notification Regarding Capital Adequacy Ratio:

Not applicable

• Restrictions on the transfer of funds and capital between the members of the Consolidated Group:

Not applicable

Companies with Less than the Regulatory Required Capital and the Amount of Shortfall

With regard to the group companies that are subject to capital deduction, as provided for in the Notification Regarding Capital Adequacy Ratio, the names of those companies whose capital is less than the regulatory required capital and the total amount of shortfall in their capital:

Not applicable

Notes: 1. Assets subject to the Standardized Approach are a) the on-balance and off-balance sheet assets of the Bank's consolidated subsidiaries, with the exception of IRB approach-applied subsidiaries and b) the suspense payments and prepaid expenses on the consolidated balance sheet of the Bank and IRB approach-applied subsidiaries.

^{2.} The total of the credit risk assets subject to the Standardized Approach (above a+b) is \(\frac{x}{2}06.1\) billion, which is not shown in these statements due to its extremely limited amount—only about 0.53% of the credit risk assets on a consolidated basis (\(\frac{x}{3}8.541.3\) billion).

CR6: IRB - Credit risk exposures by portfolio and PD range

MR4: Comparison of VaR estimates with gains/losses

For the Six Months Ended September 30, 2022

Note: The Bank conducted two excesses back-test in the past 250 business days. These excesses back-testing were conducted on October 28, 2021, resulting in a loss of \(\frac{x}{2}\)1 million with a VaR of \(\frac{x}{2}\)1 million. The reasons for these excesses back-testing were all related to market factors.

Exposure Subject to Risk-Weighted Asset Calculation for Investment Funds (Consolidated)

Amount of Exposure Subject to Risk-Weighted Asset Calculation for Investment Fund

(Billions of Yen)

Items	As of September 30, 2023	As of September 30, 2022
ICHIS	Exposure	Exposure
Look-through approach	18,394	19,817
Mandate-based approach	_	_
Simple approach (subject to 250% RW)	_	_
Simple approach (subject to 400% RW)	32	44
Fall-back approach (subject to 1250% RW)	65	71
Total	18,492	19,933

- Notes: 1. The "Look-through approach" is a computation method if the exposure-related information on the underlying assets for the retained exposure meets all the following requirements. Using this approach, the credit risk asset amount of the retained exposure is calculated by multiplying the amount of the retained exposure by the ratio that is obtained by dividing "the total amount of credit risk-weighted assets including such underlying assets" by "the total amount of assets held by the business entity that actually holds such underlying assets." (Please refer to Notification Regarding Capital Adequacy Ratio, Article 144-2.)
 - 1. The assets have been acquired appropriately and frequently.
 - $2. \ The \ related \ information \ has \ been \ inspected \ and \ verified \ by \ an \ independent \ third \ party.$
 - 2. The "Mandate-based approach" is a computation method used when credit risk asset amounts cannot be computed using the "Look-through approach." If clarified asset management criteria are available, using this approach, the credit risk asset amount of the retained exposure is calculated by multiplying the amount of the retained exposure by the ratio that is obtained by dividing the "maximized total amount of the credit risk-weighted assets including the underlying assets for the retained exposure based on such asset management criteria" by "the total amount of assets held by the business entity that actually holds such underlying assets." (Please refer to Notification Regarding Capital Adequacy Ratio, Article 144-7.)
 - 3. The "Simple approach" is a computation method applied in the case the requirements for neither the "Look-through approach" nor the "Mandate-based approach" can be met. In this approach, if the purported risk weight of retained exposure is deemed to be highly probable at the probability level listed below based on the explanation and information provided, the purported risk weight is used to compute the credit risk asset amount of the retained exposure. (Please refer to Notification Regarding Capital Adequacy Ratio, Article 144-10.)

 1. 250% or below: 250%
 - 2. More than 250% and 400% or less: 400%
 - 4. The "Fall-back approach (subject to 1250% RW)" is a method for computing credit risk asset amounts using 1250% risk weight in case none of the requirements of the "Look-through approach," "Mandate-based approach" or "Simple approach" can be met. (Please refer to Notification Regarding Capital Adequacy Ratio, Article 144-11.)

The Key Drivers of Material Changes Observed from the End of the Corresponding Reporting Period of Previous Year to the End of the Current Reporting Period

The key driver was a decrease in the amount of capital (Tier 1 capital) due to a decrease in Net Unrealized Gains on Other Securities compared to the corresponding reporting period of previous year.

The Key Drivers of Material Changes Observed from the End of the Corresponding Reporting Period of Previous Year to the End of the Current Reporting Period

The key driver was a decrease in the amount of capital (Tier 1 capital) due to a decrease in Net Unrealized Gains on Other Securities compared to the corresponding reporting period of previous year.

Sound Management of Liquidity Risk (Consolidated)

Qualitative Disclosure Items Concerning a Liquidity Coverage Ratio on a Consolidated Basis

Items concerning a change in the consolidated liquidity coverage ratio on a time-series basis

The consolidated liquidity coverage ratio has shown generally stable progress for the past two years.

Items concerning evaluation of the level of the consolidated liquidity coverage ratio

The consolidated liquidity coverage ratio has tended to be well above the required level.

The future consolidated liquidity coverage ratio is not predicted to differ substantially from the disclosed ratio.

The actual value of the consolidated liquidity coverage ratio does not differ substantially from the initial forecast.

Items concerning the details of the sum of high-quality liquid assets that can be included

In light of the Bank's consolidated liquidity coverage ratio, there is no material item.

Other items concerning the consolidated liquidity coverage ratio

The Bank has not adopted the "Special case related to qualifying operational deposits" and the "Additional amount of collateral required at the time of scenario approach-based changes in fair value."

Considering the impact on the Bank's consolidated liquidity coverage ratio, with regard to immaterial consolidated subsidiaries with restrictions on practical operation, it is possible that daily data are not used.

Qualitative Disclosure Items Concerning a Net Stable Funding Ratio on a Consolidated Basis

Items concerning a change in the consolidated net stable funding ratio on a time-series basis

The consolidated net stable funding ratio has shown stable progress for the past two years.

Items concerning exceptional treatment regarding interdependent assets and liabilities

"Exceptional treatment regarding interdependent assets and liabilities" is not applied.

Other items concerning the consolidated net stable funding ratio

The consolidated net stable funding ratio has tended to be well above the required level.

The future consolidated net stable funding ratio is not predicted to differ substantially from the disclosed ratio.

The actual value of the consolidated net stable funding ratio does not differ substantially from the initial forecast.

The Key Drivers of Material Changes Observed from the End of the Corresponding Reporting Period of Previous Year to the End of the Current Reporting Period

The key driver was a decrease in the amount of capital (Tier 1 capital) due to a decrease in Net Unrealized Gains on Other Securities compared to the corresponding reporting period of previous year.

Qualitative Disclosure Items Concerning a Liquidity Coverage Ratio on a Non-Consolidated Basis

Items concerning a change in the nonconsolidated liquidity coverage ratio on a time-series basis

The non-consolidated liquidity coverage ratio has shown generally stable progress for the past two years.

Items concerning evaluation of the level of the non-consolidated liquidity coverage ratio

The non-consolidated liquidity coverage ratio has tended to be well above the required level.

The future non-consolidated liquidity coverage ratio is not predicted to differ substantially from the disclosed ratio.

The actual value of the non-consolidated liquidity coverage ratio does not differ substantially from the initial forecast.

Items concerning the details of the sum of high-quality liquid assets that can be included

In light of the Bank's non-consolidated liquidity coverage ratio, there is no material item.

Other items concerning the nonconsolidated liquidity coverage ratio

The Bank has not adopted the "Special case related to qualifying operational deposits" and the "Additional amount of collateral required at the time of scenario approach-based changes in fair value."

Voting Rights of Members

The Norinchukin Bank is the central financial institution for Japan's agricultural, fishery and forest owners' cooperative system. The supreme management decision-making organization for the Bank is basically the Council of Delegates, which consists of representative members and substitutes for the general meetings of all shareholders. Unlike stock companies, where one share represents one vote, the voting rights of the members of the Council of Delegates are equal in principle regardless of the number of investment units they own. For this reason, a list of major shareholders has not been included in this report.
