

For The Six Months Ended September 30, 2024

# INTERIM REPORT

## 2024

**NORINCHUKIN**

**Our work at The Norinchukin Bank won't change the world overnight.**

**Our focus is on the agriculture, fishery, and forestry industries.  
This means that nature is our partner,  
and nothing in nature bears fruit overnight.  
Industries in this sector don't make things  
—they produce and nurture life as a legacy for future generations.**

**This is precisely why we maintain a century-long dedication to  
serving those who sustain these industries  
and their local communities, no matter how small the scale of their operations.  
And as the sole financial institution wholly devoted to this sector  
—the very cornerstone of our nation, we strive consistently  
to generate solid outcomes in the global financial markets.**

**But that is no longer enough.  
We must take on a greater role than ever before so that  
the agriculture, fishery, and forestry industries continue developing  
in response to the changing times.**

**We must harness our financial knowledge to make  
new contributions that extend beyond our past functions and scope.  
We must do our utmost to address on-the-ground issues.  
We must respond to the needs not only of producers,  
but also to those of processors, distributors and consumers.**

**The life generated by the agriculture, fishery, and forestry industries  
sprouts the workings of all life well into the future.**

**Now is the time for each and every one of us to give our all.  
We aim to make the chain of life that connects us to the future  
more bounteous and more certain.**

**Dedicated to sustaining all life.**

**The Norinchukin Bank**

## Forward-Looking Statements

This report contains information about the financial condition and performance of the Bank as of September 30, 2024 (unless otherwise stated), as well as forward-looking statements pertaining to the forecasts, estimations, prospects, business plans, targets, etc., of the Bank. The forward-looking statements are based on our current expectations and are subject to risks and uncertainties that might affect our businesses and could cause actual results to differ materially from those currently anticipated.

In this report, agriculture, fishery and forestry are collectively referred to as "AFF," Japan Agricultural Cooperatives are referred to as JA, Japan Fishery Cooperatives as JF and Japan Forest Owners' Cooperatives as JForest.

# Message from the Management

We would like to sincerely thank all our stakeholders for being the partners and supporting the operations of The Norinchukin Bank (“the Bank”).

We have published this Interim Report to provide an overview of our financial results for the first half of fiscal 2024.

In the financial markets during the first half of fiscal 2024, central banks have cut interest rates in response to the decelerating pace of inflation, particularly in the United States and Europe. Long-term interest rates declined overseas amid expectations of further rate cuts, but also faced upward pressure due to concerns that inflation would resume after the US presidential election. In the stock market, prices remained firm against the backdrop of strong corporate earnings. In the foreign exchange market, the yen appreciated in response to differing monetary policy stances in Japan and overseas.

Faced with volatile and uncertain market conditions, the Bank has progressed the sales of low-yielding assets and other measures to improve its portfolio with the aim of strengthening its medium-to-long-term profitability, while maintaining its financial management with a priority on soundness. As a result, consolidated ordinary profit for the first half of fiscal

2024 was ¥858.8 billion, and profit attributable to owners of the parent for the period was ¥893.9 billion.

The Bank deeply acknowledges that concerns or anxieties have arisen among our members and stakeholders due to the financial results, and is fully committed to achieving stable profits from fiscal 2025 onwards, and to establishing an even more robust profitability base (please see page 5 of this report for the action plan and its progress during fiscal 2024).

Regarding the Bank’s capital position, the capital enhancement measures progressed successfully during this period, thanks to the strong conviction and trust our members have in the Bank. As a result, our consolidated capital adequacy ratios were 20.17% for Common Equity Tier 1 Capital, 22.26% for Tier 1 Capital, and 22.35% for Total Capital.

While prioritizing financial improvement, we will ensure that our business operations support our defining mission to develop the agriculture, fishery and forestry (“AFF”) industries, which is rooted from our purpose. From the current fiscal year, we have directed our business operations in accordance with our “Medium-Term Vision”, which establishes five visions for the Bank for 2030. We will take steady initiatives to achieve this vision in collaboration with the cooperative groups. The tough business environment in the AFF industries remains impacted by escalating materials costs amid the depreciating yen and global inflation, as well as irregular global climate and repeated rainfall-driven flooding in Japan. As a financial institution centered on the AFF industries and focused on the local community, our mission is to provide maximum ongoing support to the AFF industries and all related stakeholders affected by these issues.

Finally, the Bank, in cooperation with JA Bank, JF Marine Bank, and the JForest Group, will maintain its efforts to be a trusted financial institution and organization that can fulfill roles and functions that only a cooperative can handle. We will also continue, with an eye to addressing environmental and social issues, to promote initiatives that foster the development of the AFF industries and the communities in which these industries are active. We ask for your continued support.

# Financial Results for the First Half of Fiscal 2024

## | Income

On a consolidated basis, Ordinary Loss\* came to ¥858.8 billion, compared with a profit of ¥185.5 billion in the same period the previous year, and Loss Attributable to Owners of Parent was ¥893.9 billion, compared with a profit of ¥144.3 billion in the same period the previous year.

On a non-consolidated basis, Ordinary Loss came to ¥880.4 billion, compared with a profit of ¥176.9 billion in the same period of the previous year, and Net Loss was ¥911.8 billion, compared with a profit of ¥141.2 billion in the same period of the previous year.

\* Ordinary Loss (Profits) represent Ordinary Income less Ordinary Expenses. Ordinary Income represents Total Income less certain special income, and Ordinary Expenses represent Total Expenses less certain special expenses.

## | Balance of Assets and Liabilities

On a consolidated basis, Total Assets at the end of the first half of fiscal 2024 were ¥91,724.3 billion, down ¥8,080.5 billion from the previous fiscal year-end. Total

Net Assets came to ¥5,302.7 billion, up ¥862.4 billion from the previous fiscal year-end.

On a non-consolidated basis, Total Assets were ¥88,053.5 billion, down ¥8,363.1 billion from the previous fiscal year-end. On the assets side, Loans and Bills Discounted were ¥17,127.6 billion, and Securities were ¥38,374.1 billion. On the liabilities side, Deposits amounted to ¥58,908.1 billion and Debentures were ¥358.2 billion.

## | Capital Adequacy Ratio (Basel III Standard)

On a consolidated basis, the Bank's Common Equity Tier 1 Capital Ratio was 20.17%, its Tier 1 Capital Ratio was 22.26%, and its Total Capital Ratio was 22.35%.

On a non-consolidated basis, the Bank's Common Equity Tier 1 Capital Ratio was 19.92%, its Tier 1 Capital Ratio was 22.13%, and its Total Capital Ratio was 22.23%.

# Action Plan for FY2024

## | Overview

In its pursuit of “Stable profits” and “Establishing an even more robust profitability base” from fiscal 2025 onward, the Bank is strengthening its financial portfolio by selling low-yielding assets and securing new investments and financing, backed by the capital enhancement measures.

## | Selling low-yielding assets

In the first half of the year, the Bank sold off approximately ¥7.5 trillion worth of low-yielding assets—mainly European and US government bonds. Primarily as a result of this, the Bank recorded a net loss of ¥893.9 billion for the first half of fiscal 2024.

The Bank’s progress with asset sales were complemented by changes in the external environment, including the start of interest rate cuts by overseas central banks, that have provided a tailwind and shifted its income and expenditure onto an improving trajectory.

Furthermore, in order to ensure consistent profitability and establish a solid earnings base from fiscal 2025 onward, the Bank continues in the second half of this fiscal year to reduce holdings of low-yielding assets, to the extent that it keeps the loss attributable to owners of parent for full fiscal 2024 within the range of ¥1.5

\* Non-Consolidated retained earnings of the Bank end-March 2024

trillion to its retained earnings\*, with due consideration about future market conditions.

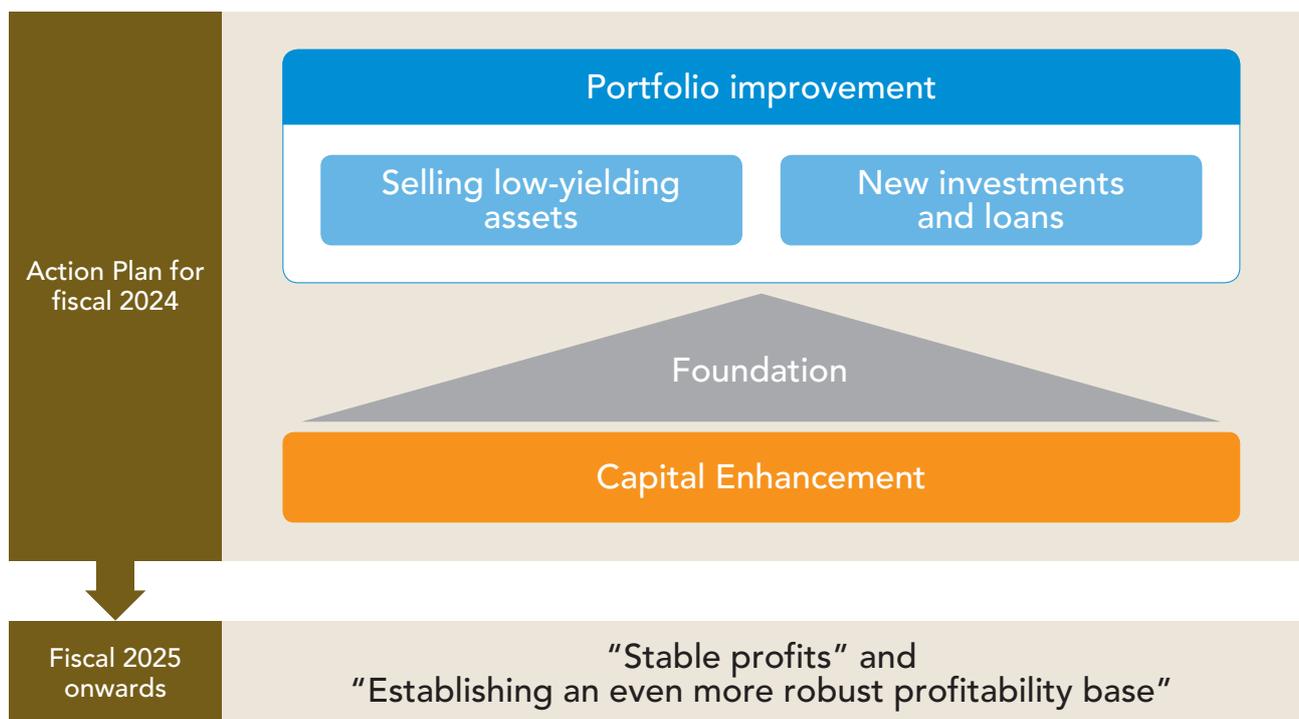

In line with this strategy, the Bank plans the sales of low-yielding assets totalling more than ¥10 trillion over the full course of fiscal 2024.

## | New investments and loans

The priority during the first half of fiscal 2024 was the sales of low-yielding assets. Entering into the second half, the Bank will have more focus on new investments in a broad range of assets, supported by the enhanced capital (CET1) in September-end. In the medium-to-long-term, the Bank aims to diversify its income base more by increasing credit assets, including loans, and to have its asset portfolio a better balance between interest rate and non-interest-rate risks.

## | Capital enhancement

With the understanding and cooperation of its members, the Bank has completed the redemption of ¥716.9 billion in perpetual subordinated loans (additional Tier 1 capital) and the procurement of ¥736.0 billion in lower-dividend-rate stock (Common Equity Tier 1 capital) at the end of September. The Bank is also in discussions regarding the procurement of approximately ¥600 billion in new subordinated term loans (Tier 2 capital).

# Our Purpose, Important Issues, Vision and Shared Value

**Purpose**  
**Dedicated to sustaining all life.**  
 – Work together with our stakeholders to foster the AFF industries and to create a prosperous future for food and lifestyles, and thereby contribute to a sustainable global environment –

---

**Materiality**  
 Important Issues to Achieve Our Purpose

Realizing a carbon-neutral society

Realizing a society living in harmony with nature

Strengthening the “earning power” of the AFF industries

Realizing a resilient food system

Achieving well-being at both local and international level

---

**Vision / Strategy**  
 Medium-Term Vision

**Nochu Vision 2030**  
 – Taking on challenges of a changing world as we look to the future –

Create impact for the global environment, society, and economy

Create value for cooperative members and users through optimal integration of digital and real

Realize a flexible and resilient organization that continues to take on challenge of changes

Support sustainable development of AFF industries and local communities

Ensure stable returns and play a role as the national level banking institution for the AFF cooperatives

Stakeholders: Members (JA, JF, JForest, etc.) / Individual cooperative members (i.e., people working in the AFF industries) / Local communities / Our clients (deposits and savings, loans) including AFF-related companies / Investors / Business partners / Governments and municipalities / Norinchukin Group employees

# Sustainability Management Initiatives

## | Sustainability Management Initiatives

Food shortages due to the globally rising population, labor shortages in advanced economies due to aging and shrinking demography, climate change caused by global warming, problems of human rights, and a loss of biodiversity: These increasingly serious issues affect the sustainability of the AFF industries in which the Bank operates. Against this backdrop, corporations are expected to take measures to address such environmental and social issues.

Based on an understanding of such global trends, the Bank performs initiatives of sustainability management to address global-level issues through its business operations, based on discussions at the Sustainability Committee, which operates under the Board of Directors. The Bank strives to achieve a sustainable society as it works to realize its Purpose, identify its Important Issues to achieve its Purpose and to implement its Medium-Term Vision for 2030.

## | Initiatives to Reduce GHG Emissions

The Bank joined the Net Zero Banking Alliance (NZBA) in March 2023 and announced its commitment to achieve 2050 Net Zero. Through engagement with its investees and borrowers to reduce GHG emissions, The Bank provides solutions for decarbonization, such as sustainable finance initiatives and GHG measurement support services in collaboration with external companies and others. In addition, the Bank works with JForest members to restore and reforest devastated private forests to secure CO<sub>2</sub> absorption. The Norinchukin Group's GHG emissions were 15,075 tCO<sub>2</sub> as of March 2023.

## | Initiatives to Increase the Income of Farmers, Fishermen, and Foresters

The Bank engages in consulting activities to address management issues faced by AFF corporations and leaders, and in supporting the establishment of value chains by investing in and financing food & agriculture-related companies, etc. In fiscal 2023, consulting services were provided to 306 such corporations/leaders via JA Bank\*.

\* JA Bank is the nation-wide financial network which consists of JA, JA Shinnoren (Prefectural Banking Federations of Agricultural Cooperatives), and the Bank. JA Bank functions essentially as a single institution.

## | Sustainable Finance Initiatives

The Bank conducted new sustainable finance with an accumulated total of ¥7.7 trillion through the first half of fiscal 2024, which represents about 77% progress toward the medium/long-term goal of ¥10 trillion, a steady advance towards the goal. In addition, the Bank conducts impact measurement and management assessments in some asset classes to clarify the impact of investment and financing activities on environmental and social issues and to facilitate quantitative management.

## | Natural Capital and Biodiversity Initiatives

As represented by the announcement of the recommendations of the Taskforce on Nature-related Financial Disclosures (TNFD) in September 2023, natural capital and biodiversity initiatives are increasingly important on a global scale.

HIDESHIMA Hirotaka, Executive Advisor of the Bank, serves as a member of the TNFD, contributing to the development and dissemination of global disclosure rules. In July 2024, the Bank published the "Climate & Nature Report 2024,"—the first report by a Japanese bank to disclose information on climate change and natural capital in an integrated manner. The Bank also provides disclosure consulting for corporate clients in collaboration with its group companies and other organizations and also promoting initiatives to raise the attractiveness of regions recognized for nature-positive activities.

## | Initiatives to promote Diversity, Equity & Inclusion

Through multifaceted efforts such as providing support for a balance between work and childcare, promoting work-style reforms, and encouraging male employees to take childcare leave, the Bank promotes initiatives to allow the active engagement of various employees, including efforts to increase the ratio of women in managerial positions.

The Bank compiled such efforts into the "Diversity & Inclusion Book," which was published in January 2024. (<https://www.nochubank.or.jp/en/sustainability/social/diversity/>)

# Revitalization of Local Communities

## JA Bank's Agriculture Finance

JA Bank supports farmers' agricultural management and livelihoods by providing various types of loans. As of March 31, 2024, JA Bank's outstanding balance of agricultural loans was ¥1,997.7 billion (of which loans to farmers amounted to ¥1,249.8 billion). The outstanding balance of loans in trust of Japan Finance Corporation and other entities came to ¥635.9 billion.

### Outstanding Balance of Agricultural Loans, by Type

(Unit: ¥ billion)

Type	March 31, 2024
Direct agricultural loans	1,610.2
Agricultural policy-based loans	387.5
Agriculture Modernization Loans	206.6
Other policy-based loans	180.8
Total	1,997.7

- Notes: 1. Direct agricultural loans are non-policy-based loans funded by JA Bank.  
 2. Agricultural policy-based loans refer to: (1) those financed directly or indirectly by local authorities; and (2) those provided by JA Bank at a low interest rate based on interest subsidies, etc., from local authorities.  
 3. Other policy-based loans include agricultural management improvement promotion loans (Super S Fund) and agricultural management assistance support loans.  
 4. This table includes outstanding loan balance of The Norinchukin Bank, on the basis of excluding policy-based loans such as the Bank of Japan's loan support program etc. which are financed by The Norinchukin Bank on behalf of the members.

### Outstanding Balance of Agricultural Loans in Trust

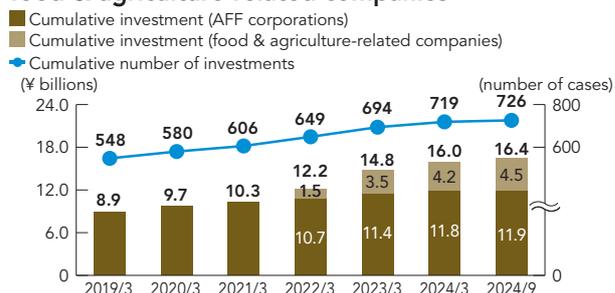

(Unit: ¥ billion)

Type	March 31, 2024
Japan Finance Corporation loans	635.7
Other	0.1
Total	635.9

## Investment in AFF corporations and food & agriculture-related companies

Agribusiness Investment & Consultation Co., Ltd., was established in October 2002, with funding from the Japan Finance Corporation and JA Group, to invest in agricultural corporations. With the revision of the Act on Special Measures for Facilitating Investment in Agriculture, Forestry and Fisheries Corporations, etc., in April 2021 and the enactment of said revisions in August 2021, the scope of investment was expanded to include AFF industries along with the entire value chain related to these industries (food and agriculture value chain). The company's aim is to enhance access to capital by AFF corporations and food & agriculture-related companies, and to contribute to the sustainable development of the AFF and food industries. As of end-September 2024, a total of 726 investments worth ¥16.4 billion had been made.

## Investments in AFF corporations and food & agriculture-related companies

## Promoting the "Hometown Co-creation Business"

As described below, the Bank has implemented its "Hometown Co-creation Business" to support regional revitalization measures initiated by JA and deployed in collaboration with local stakeholders. Its aim is to demonstrate JA Bank's unique financial intermediary functions through the implementation of regional revitalization measures that address the issues and realities of each region.

### (1) Enhancing digital inclusion - JA Smartphone Class

Digital services are ever more present in various aspects of our lives. Given smartphones have become an increasingly important infrastructure tool for day-to-day living, the Bank and JA Zenchu (Central Union of Agricultural Cooperatives) co-worked with major smartphone carriers to develop the JA Smartphone Class program to meet the needs of the community. By the end of fiscal 2023, approximately 7,400 classes had been held. We will continue to administer the program to JA locations throughout the country to provide new opportunities for experiencing digital services and enhance digital inclusion.

### (2) Improving financial literacy - Developing regional financial education

Financial and economic education are becoming more important, as shown by the expansion of the national curriculum guidelines in Japan, in response to evolving economic, social, and living conditions. JA Bank has long provided financial and economic education either at the prefectural level or at the JA level and, from fiscal 2024, has commenced nationwide programs, including (1) development of financial education classes for elementary school students that can be held in conjunction with food and agriculture events, and (2) classes for high school students taught by instructors dispatched to local schools and other locations. JA Bank promotes regional financial education with focus on local community, which is its unique nature as cooperatives. JA Bank hopes students have

## Revitalization of Local Communities

opportunity to nurture their values for work and living in future, consider agriculture as career options, beyond "money" and "asset formation" which are taught in the program.

### | Training of Next-Generation Farm Operators

The Bank encourages the training of next-generation farm operators through the Japan Institute of Agricultural Management, operated by AgriFuture Japan of which the Bank is the main sponsor. Since the opening of the institute in 2013, 128 students have graduated and begun farming nationwide.

Celebrating its 10th anniversary in April 2023, the Institute began an online school to expand the scope of agricultural management education. The institute will continue to provide new value to the agricultural industry by changing its curriculum at the Shinagawa school in April 2024 to foster innovators in the agribusiness field.

### | Stronger Collaboration with the Japan Agricultural Corporations Association

In February 2014, the Bank entered into a comprehensive partnership agreement with the Japan Agricultural Corporations Association, a public interest incorporated association, consisting of pioneering agricultural corporation members nationwide. By utilizing the Bank's network, the Bank provides a wide range of support for the creation of new customers and the export of agricultural and livestock products toward solving issues that the association's members face.

### | Agricultural, Forestry, and Fisheries Future Fund

To support initiatives of agricultural, fishery, and forestry workers/business entities, the Bank established the "Agricultural, Forestry, and Fisheries Future Fund" in 2014, to which the Bank contributed ¥20.0 billion. The Fund has provided subsidies for a total of 75 projects and initiatives.

### | Initiatives to Donate Food and Farming Study Materials

Toward the development of local communities, the Bank supports and encourages initiatives such as donating study materials on the theme of agriculture and food for fifth graders in primary schools. Since fiscal 2008, the Bank has distributed more than 20 million books cumulatively to primary schools nationwide and Japanese schools overseas. In fiscal

2024, we donated about 1.27 million books.

### | Wood Solution Network

The Bank operates the Wood Solution Network (WSN), which consists of lumber-related companies and groups, in liaison with an endowed research department studying lumber-using systems at the Graduate School of Agricultural and Life Sciences, the University of Tokyo. The aim of WSN activities is to achieve the knowledge and wisdom to tackle challenges and promote the expansion of lumber use. For the third *course*, WSN has selected the SDGs, the significance of lumber use, and regional economic promotion as the themes for promoting its activities.

### | Promoting the use of domestic lumber

Among our regional contributions to the expanded use of domestic lumber and the development of forests and the forestry industry, the Bank and each JForest member sponsor tree-planting events, support the sale of wood products, and provide business-matching services.

### | Norinchukin Potential Forest Productivity Fund

Since its foundation in 2005 as the Bank's 80th anniversary forest rejuvenation fund, the Norinchukin Potential Forest Productivity Fund has provided ¥2.68 billion cumulatively in subsidies for 130 projects covering 18,762 hectares nationwide by the end of fiscal 2023. From the 2024 application period, criteria for project eligibility have been changed from "regeneration of degraded privately owned forests in Japan" to "activities aimed at demonstrating the public interest of privately owned forests in Japan, not limited to regeneration of degraded privately owned forests". The program has been expanded beyond conventional forest maintenance to include proactive support for projects related to forestland utilization and biodiversity conservation.

### | Building a comprehensive forest carbon credit platform spanning from creation to sale

In collaboration with JForest Zenmoriren (National Federation of Forest Owners' Cooperative Associations), the Bank launched a forest carbon credit platform at the end of March 2023 with the aim of contributing to the green growth of forests and forestry and to a carbon neutral society. In March 2024, the first transaction was completed on the platform. The Bank is committed to ongoing support in such areas as efficient forest credit creation assistance by JForest nationwide, to support for matching JForest with

## Revitalization of Local Communities

companies wishing to purchase credits on the platform.

### **Support Project for JF Women's Groups/ Youth Groups**

To support the activities of JF Women's Groups/Youth Groups and maintain and rejuvenate the foundation of local fishery businesses, since fiscal 2013 the Bank has subsidized cooperatives' campaign activities and workshop expenses for fishery business management.

In addition, in alliance with *Umitonagisa*, a public fund for environmental beautification, and to address oil contamination, the Bank has supplied cleaning tools for JF to support coastal cleaning activities.

### **JF Marine Bank: Support for fishery environmental conservation**

Amid changes in the environment surrounding the fishing industry, including ecosystem interruption due to rising sea temperatures and the dispersal of marine plastic waste and floating trash across national borders, a declining number of fishermen and their JF organizations face an increasing burden in connection with these issues.

In light of this situation, in 2023 we as JF Marine Bank\* began supporting activities to preserve the fishing environment and help expanding the activities of JF and fishermen to preserve the fishing environment.

\* JA Marine Bank is the nation-wide financial network which consists of JF, JF Shingyoren (Prefectural Banking Federations of Fishery Cooperatives), and the Bank. JF Marine Bank functions essentially as a single institution.

# Notes to the Consolidated Financial Statements (Unaudited)

The Norinchukin Bank and Subsidiaries

## 1. Basis of Presentation

The consolidated financial statements have been prepared based on the accounting records maintained by The Norinchukin Bank (“the Bank”) and its consolidated subsidiaries in conformity with accounting principles and practices generally accepted in Japan, that are different in certain respects from the application and disclosure requirements of International Financial Reporting Standards.

The consolidated financial statements are intended only to present the consolidated financial position and results of operations and cash flows in accordance with accounting principles and practices generally accepted in Japan.

Amounts in U.S. dollars are included solely for the convenience of readers. The exchange rate of ¥142.77=U.S.\$1, the approximate rate of exchange prevailing on September 30, 2024, has been used for translation purposes. The inclusion of such amounts is not intended to imply that Japanese yen amounts have been, or could be, readily converted, realized or settled in U.S. dollars at the aforementioned rate or at any other rate.

The yen and U.S. dollars figures disclosed in the consolidated financial statements are expressed in millions of yen and millions of U.S. dollars, and have been rounded down. Consequently, differences may exist between the sum of rounded figures and the totals listed in the interim report.

## 2. Summary of Significant Accounting Policies

### (1) Principles of Consolidation

Scope of Consolidation

Subsidiaries

Subsidiaries are, in general, the companies in which the Bank 1) holds, directly and/or indirectly, more than 50% of the voting shares; 2) holds, directly and/or indirectly, 40% or more of the voting shares and, at the same time, exercises effective control over the decision-making body by directing business policy and deciding on financial and operating policies; or 3) holds more than 50% of the voting shares together with those entities that would vote or agree to vote with the Bank due to their close relationship with the Bank through sharing of personnel, provision of finance and technology and other relationships and, at the same time, has effective control over the decision-making body, unless evidence exists which shows that the Bank does not have such control.

The number of subsidiaries as of September 30, 2024 was 26, 23 of which were consolidated and the remaining 3 subsidiaries were unconsolidated.

The principal consolidated subsidiaries are as follows:

The Norinchukin Trust & Banking Co., Ltd.

Kyodo Housing Loan Co., Ltd.

Norinchukin Bank Europe N.V.

Since the period ended September 30, 2024, “The Cooperative Servicing Co., Ltd.” has been changed from an affiliate accounted for by the equity method to a consolidated subsidiary due to the acquisition of its shares.

The principal unconsolidated subsidiary is as follows:

NORINCHUKIN INNOVATION FUND L.P.

The unconsolidated subsidiaries were excluded from the scope of consolidation, since its impact on the consolidated financial statements was not so material as to hinder a rational judgement of the financial position and results of operations in terms of Total Assets, Ordinary Income, Net Income, Retained Earnings and Accumulated Other Comprehensive Income.

There were two companies that were not subsidiaries although the Group owns more than 50% voting rights on its own account as of September 30, 2024.

The principal company is as follows:

Yamamoto Suisan Yusou Co., Ltd.

These companies were not subsidiaries because the objective of the Group to own the voting rights is only to earn capital gains through fostering new businesses and business revitalization and the investments meet the requirements prescribed in Paragraph 16 of “Implementation Guidance on Determining a Subsidiary and an Affiliate” (The Accounting Standards Board of Japan (ASBJ) Guidance No. 22).

The dates of the first half of fiscal year of consolidated subsidiaries are as follows:

Closing date: June 30, 2024      Number of subsidiaries: 10

Closing date: September 30, 2024      Number of subsidiaries: 13

The necessary adjustments have been made to the financial statements for any significant transactions that took place between their respective closing dates and the date of the consolidated financial statements.

#### Affiliates

Affiliates are, in general, the companies, other than subsidiaries, in which the Bank 1) holds, directly and/or indirectly, 20% or more of the voting shares; 2) holds, directly and/or indirectly, 15% or more of the voting shares and also is able to influence the decision-making body through sharing of personnel, provision of finance and technology, and other relationships; or 3) holds more than 20% of the voting shares together with those entities that would vote or agree to vote with the Bank due to their close relationship with the Bank through sharing of personnel, provision of finance and technology and other relationships and, at the same time, is able to influence the decision-making body in a material degree, unless evidence exists which shows that the Bank does not have such influence.

The number of affiliates as of September 30, 2024 was 5, all of which were accounted for by the equity method. Differences between the cost and the underlying net equity at fair value of investments in companies which are accounted for by the equity method have been amortized by the straight-line method over 20 years except for immaterial goodwill which are charged to income in the year of acquisition. Negative goodwill is credited to income in the year of acquisition. The principal affiliate accounted for by the equity method is as follows:

JA MITSUI LEASING, LTD.

Since the period ended September 30, 2024, "The Cooperative Servicing Co., Ltd." has been excluded from an affiliate accounted for by the equity method due to the acquisition of its shares.

### (2) Transactions for Trading Purposes

Transactions for trading purposes are those seeking gains arising from short-term market movements or from the arbitrage opportunities in interest rates, foreign exchange rates and other market related indices. Such transactions are reported as Trading Assets or Trading Liabilities in the consolidated balance sheet on a trade date basis.

Gains and losses arising from transactions for trading purposes are recorded in Trading Income and Trading Expenses on the consolidated statement of operations.

Securities, monetary claims and certain other instruments held for trading purposes are valued at fair value prevailing at the end of the period. Derivatives held for trading purposes, such as swaps, futures and options, are valued on the assumption that they were settled at the end of the period.

Trading Income and Trading Expenses include interest received and paid in the period, gains or losses resulting from any change in the fair value of securities and monetary claims from the end of the previous fiscal year and gains or losses of derivatives resulting from any change in the fair value, which is determined assuming they were settled at the end of the period, from the end of the previous fiscal year.

Derivatives are measured at fair value based on net assets or liabilities after offsetting financial assets and financial liabilities with respect to specific market risk or specific credit risk.

### (3) Financial Instruments

#### a. Securities

Held-to-maturity debt securities are valued at amortized cost (straight-line method), as determined by the moving average method.

Other securities are valued at fair value (the cost of securities sold is calculated by the moving average method). Stocks and others which are no market prices ("Stocks and others with no market prices") are valued at cost determined by the moving average method.

Net Unrealized Gains or Losses on Other Securities, net of taxes, are reported separately in Net Assets.

Securities included in Money Held in Trust are valued using the same methods described in (2) and (3) a. above.

#### b. Derivatives

Derivative transactions (other than transactions for trading purposes) are recorded at fair value.

The fair value of Derivatives is calculated based on net assets or liabilities after offsetting financial assets and financial liabilities with respect to specific market risk or specific credit risk.

### c. Hedge Accounting

#### (a) Hedge of Interest Rate Risk

The Bank applies the deferral method of hedge accounting to the hedge transactions to manage interest rate risk associated with various financial assets and liabilities, which is described in “Accounting and Auditing Treatment relating to the Adoption of ‘Accounting for Financial Instruments’ for Banks,” issued by the Japanese Institute of Certified Public Accountants (“JICPA”), (JICPA Industry Committee Practical Guideline No. 24, issued on March 17, 2022). Hedge effectiveness of a fair value hedge is assessed by identified groups of hedged items, such as loans and deposits, and the corresponding groups of hedging instruments, such as interest rate swaps within the same maturity bucket. Hedge effectiveness of a cash flow hedge is assessed based on the correlation of the interest rate risk indicators of the hedged items and that of the hedging instruments.

#### (b) Hedge of Foreign Exchange Rate Risk

The Bank applies the deferral method of hedge accounting to the hedge transactions to manage foreign exchange rate risk arising from various financial assets and liabilities denominated in foreign currencies, which is described in “Accounting and Auditing Treatment relating to Accounting for Foreign Currency Transactions in the Banking Industry” (JICPA Industry Committee Practical Guideline No. 25, issued on October 8, 2020). Hedge effectiveness is assessed by reviewing whether the amount of the hedged items, such as financial monetary assets and liabilities denominated in foreign currencies, exceeds that of the hedging instruments, such as currency swap or foreign exchange swap transactions, entered into to mitigate the foreign exchange rate risk arising from the hedged items.

The deferral method or the fair value method of hedge accounting is applied to the portfolio hedges of foreign exchange rate risks associated with securities denominated in foreign currencies (other than debt securities), provided that (1) the securities denominated in foreign currencies are identified as hedged items in advance, and (2) foreign currency amounts of spot and forward liabilities exceed those of the acquisition costs of the foreign currency securities designated as hedged items.

#### (c) Internal Derivative Transactions

Internal derivative transactions between trading accounts and banking accounts or inter-division transactions, which are designated as hedges, are not eliminated. The related gains and losses are recognized in the consolidated statement of operations or are deferred in the consolidated balance sheet in accordance with the hedge accounting rules, because the internal interest rate swap and currency swap transactions, that are designated as hedging instruments, are traded in a non-discretionary manner and are appropriately and ultimately covered by third party transactions, which are conducted in accordance with the standards stipulated in the JICPA Industry Committee Practical Guideline No. 24 and No. 25.

For certain other assets or liabilities, the Bank applies the deferral method or the accrual method of hedge accounting, as specifically permitted for certain interest rate swaps. Under the deferral method, the recognition of income or expenses associated with a hedging instrument is deferred to the period when the income or expense arising from the hedged item is recognized.

### (4) Tangible Fixed Assets (other than Lease Assets)

#### a. Depreciation

Depreciation of Tangible Fixed Assets of the Bank is calculated using the declining-balance method. However, depreciation on buildings acquired on or after April 1, 1998 (excluding buildings and accompanying facilities) and buildings and accompanying facilities and structures acquired on or after April 1, 2016 are calculated using the straight-line method.

The useful lives of major Tangible Fixed Assets are as follows:

Buildings:	15 years to 50 years
Others:	5 years to 15 years

Depreciation of Tangible Fixed Assets of the consolidated subsidiaries is primarily calculated using the declining-balance method over their estimated economic useful lives.

#### b. Land Revaluation

In accordance with the Law Concerning the Revaluation of Land, effective as of March 31, 1998, land used for business purposes

was revaluated on March 31, 1998. Unrealized gains arising from revaluation, net of deferred tax, are disclosed as Revaluation Reserve for Land and included in Net Assets on the consolidated balance sheet. The related deferred tax assets or deferred tax liability is recorded as Deferred Tax Assets for Land Revaluation or Deferred Tax Liabilities for Land Revaluation.

The land prices used for the revaluation were reasonably calculated based on third-party appraisals in accordance with Article 2-5 of the enforcement ordinance for the Law Concerning the Revaluation of Land.

#### **(5) Intangible Fixed Assets (other than Lease Assets)**

Depreciation of Intangible Fixed Assets is calculated using the straight-line method.

The costs of software developed or obtained for internal use are capitalized and amortized over an estimated useful life of 5 years.

#### **(6) Lease Assets**

Depreciation of Lease Assets in Tangible Fixed Assets and Intangible Fixed Assets which are finance leases where the ownership of assets is not transferred to the lessees is calculated using the straight-line method over the lease term with zero residual value unless residual value is guaranteed by the corresponding lease contracts.

#### **(7) Foreign Currency Translation**

Assets and liabilities denominated in foreign currencies, and accounts of overseas branches are translated into Japanese yen primarily using the exchange rates in effect at the consolidated balance sheet date.

Assets and liabilities of the consolidated subsidiaries denominated in foreign currencies are translated into Japanese yen using the respective exchange rates in effect at the balance sheet date.

#### **(8) Reserve for Possible Loan Losses**

Reserve for Possible Loan Losses of the Bank is computed as follows:

a. Reserve for loans to debtors who are legally bankrupt under the Bankruptcy Law, Special Liquidation under Company Law or other similar laws (“debtors in bankruptcy”) or debtors who are substantially bankrupt under those laws (“debtors in default”) is provided based on the remaining book value of the loans after the direct write-off described below and the deduction of the amount expected to be collected through the disposals of collateral or the execution of guarantees.

With respect to loans to borrowers who are legally or substantially bankrupt and that are secured by collateral or guarantees, the remaining book value of the loan, after the deduction of the amount of collateral or the execution of guarantees, is directly written off. Direct write-offs were ¥11,345 million (\$79 million) and ¥9,227 million for the period ended September 30, 2024 and the fiscal year ended March 31, 2024, respectively.

b. Reserve for loans to debtors who are not currently bankrupt, but are likely to become bankrupt (“doubtful debtors”), is determined after taking into account a comprehensively evaluated repayment ability of debtors after deducting the amount expected to be collected through the disposal of collateral or the execution of guarantees.

c. Reserve for loans to debtors with restructured loans (“debtors under requirement of control”) (see Note 5) and other debtors requiring close monitoring going forward (“other substandard debtors”) is provided based on the Discounted Cash Flow method if the loan balance exceeds a specific amount and the future cash flows of the principal and interest of the loan can be reasonably estimated. Under the Discounted Cash Flow method, reserve is measured as the difference between the book value of the loan and its present value of expected future cash flows, discounted primarily by the contractual interest rate before the terms of the loan were restructured.

d. Reserve for loans to “debtors under requirement of control” other than those indicated above, the Bank principally estimates expected losses for the next 3 years. Whereas “other substandard debtors” and debtors who maintain favorable operating conditions and who have no particular financial difficulties (“standard”), the Bank estimates expected losses for the next year. The expected losses are calculated by long-term averages of the historical loan-loss ratios based on past 1-or 3-year loan-loss experience and further adjusted for the risks identified based on future forecasts. Specifically, the reserve for possible loans losses is recorded, taking into account the current position in economic cycles and the likelihood of each scenario in light of future out-

look, by referring to historical loan losses, based on the macroeconomic indicators (Indexes of Business Conditions (Composite Index (Coincident Index))) which are highly correlated to historical records of loan losses and the Bank's outlook for economic fluctuations. The future forecasts are approved by directors after consultation with a committee composed of management (the Risk Management Committee).

- e. Specific reserve for loans to certain countries with financial difficulties is provided based on the expected amount of losses taking into account the political, economic and other conditions in each country. As there were no specific loans to certain countries expected to incur losses at the end of the period, no specific reserve for loans to certain countries with financial difficulties has been recognized.

All claims are assessed by the Business Units based on the Bank's internal rules for the self-assessment of asset quality. The Asset Audit Department, which is independent from the Business Units, audits these self-assessments. Reserves described above are determined based on the results of these self-assessments.

Reserve for Possible Loan Losses for receivables of the Bank's consolidated subsidiaries is provided at the amount determined as necessary using the past default ratio. Reserve for Possible Loan Losses for problem receivables of the Bank's consolidated subsidiaries is provided by taking into account their recoverability and an estimate of uncollectible amount.

#### **(9) Reserve for Possible Investment Losses**

Reserve for Possible Investment Losses represents an amount determined to be necessary to cover the estimated loss from the investments, taking into account the financial condition and other factors of the issuer of the securities. As the amount determined to be necessary was zero at the end of the period, no Reserve for Possible Investment Losses has been recognized.

#### **(10) Reserve for Bonus Payments**

Reserve for Bonus Payments represents estimated cost of payment of employees' bonuses attributable to the period.

#### **(11) Reserve for Directors' Retirement Benefits**

Reserve for Directors' Retirement Benefits for the payments of retirement benefits for directors (including Executive Officers) and corporate auditors is recognized as the required amount accrued at the end of the period.

#### **(12) Accounting Method for Retirement Benefits**

In calculating retirement benefit obligations, the benefit formula basis is used for attributing expected retirement benefits to the end of the period.

Unrecognized prior service cost is amortized over a certain period (10 years) within the employees' average remaining service period using the straight-line method beginning in the fiscal year in which the difference has arisen.

Unrecognized actuarial differences are amortized over a certain period (10 years) within the employees' average remaining service period using the declining-balance method beginning in the fiscal year after the difference has arisen.

Some of the Bank's consolidated subsidiaries, in calculating Net Defined Benefit Liability and retirement benefit cost, adopt the simplified method whereby the retirement benefit obligations are calculated at an amount that would be paid if all eligible employees voluntarily retired at the end of the period.

#### **(13) Accounting for Income Taxes**

Income Taxes-Current and Income Taxes-Deferred for the period are calculated based upon assumption that reversal from or transfer to Reserve for Tax Basis Adjustments of Fixed Assets by the disposal of Retained Earnings is made at the end of the fiscal year.

#### **(14) Scope of "Cash and Cash Equivalents" in the Consolidated Statement of Cash Flows**

"Cash and Cash Equivalents" in the consolidated statement of cash flows represents cash, non-interest bearing due from banks and due from the Bank of Japan in Cash and Due from Banks on the consolidated balance sheet.

**(15) Profit (Loss) Attributable to Owners of Parent per Share**

Profit (Loss) Attributable to Owners of Parent per Share is computed based upon the weighted average number of shares outstanding during the period.

The number of lower dividend rate stocks is deducted from the denominator in the calculation of Profit (Loss) Attributable to Owners of Parent per Share.

**(16) Accounting Principles and Procedures When Related Accounting Standards Are Not Clear**

Profit and losses on cancellation of Investment Trust are accounted in "Interest and Dividends on Securities" on Profit and Loss Statement.

Loans Past Due for Three Months or More	1,073	635	7
Restructured Loans	15,387	20,457	107
<b>Total</b>	<b>¥96,988</b>	<b>¥93,363</b>	<b>\$679</b>

Notes: 1. These assets consist of those included in the accounts of bonds included in "Securities" (its principal's redemption and interest payments are guaranteed, in whole or in part, and the corporate bonds issue is limited to a private placement of the securities (Article 2, Paragraph 3 of the Financial Instruments and Exchange Act)), "Loans", "Foreign Exchanges Assets", accrued interest income and suspense payment in "Other assets" and "Customers' Liabilities for Acceptances and Guarantees" on the consolidated balance sheet, and securities in the notes (Limited to those under a loan for use or lending agreement.) that are in case of loan.

2. Bankrupt and Quasi-Bankrupt Assets are credits against debtors in bankruptcy due to the commencement of bankruptcy proceedings, the commencement of corporate reorganization proceedings, and the petition of rehabilitation proceedings, as well as credits of a similar nature.

3. Doubtful Assets are credits that the debtor is not yet in a state of bankruptcy, but its financial position and business performance have deteriorated, and it is highly probable that principal's collection and interest on credits in accordance with the terms of the contract will not be received. These credits do not fall under the category of Bankrupt and Quasi-Bankrupt Assets.

4. Loans Past Due for Three Months or More are loans on which payments of principal and/or interest have not been made for a period of three months or more since the next day following the first due date, and which are not included in Bankrupt and Quasi-Bankrupt Assets, or Doubtful Assets.

5. Restructured loans are loans whereby its terms are modified in favor of the borrowers by reducing the interest rate, deferral of payments of interest or principal, waiving principal repayments, etc., in order to support the borrowers' rehabilitation and facilitate the collection of the loans, and which are not included in Bankrupt and Quasi-Bankrupt Assets, Doubtful Assets or Loans Past Due for Three Months or More.

## 6. Assets Pledged

Assets pledged as collateral comprise the following:

	Millions of Yen		Millions of U.S. Dollars
	As of September 30, 2024	As of March 31, 2024	As of September 30, 2024
Securities	¥10,938,458	¥14,143,678	\$76,615
Loans and Bills Discounted	1,883,590	1,684,362	13,193

Liabilities secured by the above assets are as follows:

	Millions of Yen		Millions of U.S. Dollars
	As of September 30, 2024	As of March 31, 2024	As of September 30, 2024
Payables under Repurchase Agreements	¥9,006,000	¥12,942,102	\$63,080
Borrowed Money	2,826,621	2,330,962	19,798

In addition, as of September 30, 2024 and March 31, 2024, Securities (including transactions of Money Held in Trust) of ¥11,931,536 million (\$83,571 million) and ¥13,351,390 million, respectively, and Foreign Exchange Assets (including transactions of Money Held in Trust) of ¥119,932 million (\$840 million) and ¥34,304 million, respectively, were pledged as collateral for settlement of exchange and derivative transactions or as margins of futures transactions.

As of September 30, 2024 and March 31, 2024, initial margins of futures markets of ¥166,124 million (\$1,163 million) and ¥112,022 million, respectively, cash collateral paid for financial instruments of ¥236,634 million (\$1,657 million) and ¥1,351,725 million, respectively, other cash collateral paid of ¥577,221 million (\$4,043 million) and ¥586,385 million, respectively, and guarantee deposits of ¥5,654 million (\$39 million) and ¥5,760 million, respectively, were included in Other Assets.

## 7. Deposits

	Millions of Yen		Millions of U.S. Dollars
	As of September 30, 2024	As of March 31, 2024	As of September 30, 2024
Time Deposits	¥49,887,539	¥52,507,758	\$349,425
Deposits at Notice	5,268	5,823	36
Ordinary Deposits	3,270,287	4,446,200	22,905
Current Deposits	62,897	70,082	440
Other Deposits	5,697,710	5,828,791	39,908
Total	¥58,923,704	¥62,858,656	\$412,717

## 8. Borrowed Money

Borrowed Money includes subordinated borrowings of ¥600,004 million (\$4,202 million) and ¥1,316,972 million as of September 30, 2024 and March 31, 2024, respectively, which have a special agreement that requires the fulfillment of the payment obligations of such borrowing to be subordinated to other general liabilities.

## 9. Commitments to Overdrafts and Loans

Commitments related to overdrafts and loans represent agreements to extend overdrafts or loans up to the pre-agreed amount at the customer's request as long as no violation of the conditions stipulated in the commitment agreement exists. The amounts of undrawn commitments in relation to such agreements were ¥4,969,203 million (\$34,805 million) and ¥4,886,891 million as of September 30, 2024 and March 31, 2024, respectively. The amounts of the undrawn commitments, which the Bank and its consolidated subsidiaries could cancel at any time without cause, were ¥2,951,781 million (\$20,675 million) and ¥2,918,650 million as of September 30, 2024 and March 31, 2024, respectively.

The amount of undrawn commitments does not necessarily affect the future cash flow of the Bank and its consolidated subsidiaries because the majority of such agreements are terminated without being exercised. Most of these agreements have provisions which stipulate that the Bank and its consolidated subsidiaries may not extend the loan or may decrease the commitment when there are certain changes in the overall financial conditions, certain issues relating to collateral and other reasons. At the time of extending loans to customers, the Bank and its consolidated subsidiaries are able to request collateral in the form of premises or securities as necessary. After extending loans, the Bank and its consolidated subsidiaries periodically check the financial condition of its customers based on predefined policies and procedures and act to secure loans as necessary.

## 10. Securities Loaned

Securities include securities loaned under unsecured lending agreements (Saiken Taishaku Torihiki) totaling nothing as of September 30, 2024 and March 31, 2024.

Securities borrowed under unsecured borrowing agreements (Saiken Taishaku Torihiki) and securities purchased under resale agreements and cash-collateralized borrowing agreements and others, which can be sold or re-pledged by the Bank, include securities re-pledged of ¥727,824 million (\$5,097 million) and ¥824,702 million as of September 30, 2024 and March 31, 2024, respectively, and include securities held without re-pledge of ¥35,836 million (\$251 million) and ¥22,480 million as of September 30, 2024 and March 31, 2024, respectively. No such securities are re-loaned to the third parties.

## 11. Paid-in Capital

	Millions of Yen		Millions of U.S. Dollars
	As of September 30, 2024	As of March 31, 2024	As of September 30, 2024
Common Stock	¥4,751,257	¥4,015,198	\$33,279
Other Stock	24,999	24,999	175
Total	¥4,776,257	¥4,040,198	\$33,454

The Common Stock account includes lower dividend rate stock with a total par value of ¥4,325,539 million (\$30,297 million) and ¥3,589,481 million as of September 30, 2024 and March 31, 2024, respectively.

Lower dividend rate stock is similar to regular common stock but has been issued on the condition that the dividend yield will be set below that relating to common stock.

The Other Stock of ¥24,999 million (\$175 million) was reclassified from preferred stock following the cancellation of preferred stock, in accordance with Article 15-1-1 of Act on Preferred Equity Investment by Cooperative Structured Financial Institution as of May 12, 1993.

## 12. Other Income

## 16. Financial Instruments

### (1) Disclosures Regarding the Fair Value of Financial Instruments and Other Items

Stocks and others with no market prices are excluded from the table below(ref. Note). In addition to this, Receivables under Resale Agreements, Cash and Due from Banks, Negotiable Certificates of Deposit, Call Money and Bills Sold, Payables under Repurchase Agreements, and Short-term Entrusted Funds, are omitted because these instruments are settled in a short period and then their fair values would approximate their carrying values.

“Consolidated Balance Sheet Amount,” “Fair Value” and “Difference” as of September 30, 2024 and March 31, 2024 are as follows:

	Millions of Yen			Millions of U.S. Dollars

<b>Total Derivative Instruments</b>	<b>¥(1,081,646)</b>	<b>¥(1,081,646)</b>	<b>¥ —</b>

(\*1) 1. Money Held in Trust and Loans and Bills Discounted are net of Reserve for Possible Loan Losses. Money Held in Trust is presented by net on the consolidated balance sheet as the reserve amounts are immaterial.  
2. Derivative Instruments are excluded from Trading Assets.  
3. Derivative Instruments within Trading Assets, Trading Liabilities, Other Assets and Other Liabilities are shown by net position. Receivables and payables which arise from Derivative Instruments are shown on a net basis.  
The fair value of certain interest rate swaps to which the accrual method of hedge accounting is applied, as specifically permitted for certain interest rate swaps, is reflected in fair value of Loans and Bills Discounted, Debentures and Borrowed Money as the hedging instruments are accounted for together with the Loans and Bills Discounted and other items.

(Note) The following tables list Consolidated Balance Sheet Amount of Stocks and others with no market prices, Investments in Partnership and others as of September 30, 2024 and March 31, 2024:

“Securities” in “Disclosures Regarding the Fair Value of Financial Instruments and Other Items” excludes these financial instruments.

As of September 30, 2024	Millions of Yen	Millions of U.S. Dollars
Stocks and others with no market prices (*1)	<b>¥221,926</b>	<b>\$1,554</b>
Investments in Partnership and others (*2)	<b>918,955</b>	<b>6,436</b>

(\*1) 1. The amount of revaluation losses for the period was ¥152 million (\$1 million) on Unlisted Stocks.  
2. Investments in Partnership are out of scope from the disclosure of the fair value measurement due to being applied to Article 24-16 of Implementation Guidance on Accounting Standard for Fair Value Measurement (ASBJ Guidance No. 31 on 17th June 2021).

As of March 31, 2024	Millions of Yen
Stocks and others with no market prices (*1)	¥227,744
Investments in Partnership and others (*2)	946,857

(\*1) 1. The amount of revaluation losses for the fiscal year ended March 31, 2024 was ¥988 million on Unlisted Stocks.  
2. Investments in Partnership are out of scope from the disclosure of the fair value measurement due to being applied to Article 24-16 of Implementation Guidance on Accounting Standard for Fair Value Measurement (ASBJ Guidance No. 31 on 17th June 2021).

**(2) Disclosures Regarding the Fair Value of Financial Instruments and Other Items by Level within the Fair Value Hierarchy**  
According to observability and significance of inputs used by calculating fair values, fair values for these financial instruments are classified into the following three-level hierarchy.

Level 1 - Unadjusted quoted prices for identical instruments in active markets.

Level 2 - Observable inputs other than Level 1 prices that are either directly or indirectly observable for the financial instrument.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the instruments.

If multiple inputs which have a significant impact on market value calculation are used, a financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Financial assets and liabilities whose fair values are equal to consolidated balance sheet amounts are as follows.

As of September 30, 2024	Millions of Yen			Millions of U.S. Dollars

(Note 1) Calculation Methods and Inputs for the Fair Value of Financial Instruments are as follows:

#### Assets

##### Monetary Claims Bought

Monetary Claims Bought are valued and classified according to the same methods described in “Loans and Bills Discounted” and “Securities” below.

##### Trading Assets

Trading Securities are valued and classified according to the same methods described in “Securities” below.

##### Money Held in Trust

Loans and Bills Discounted and Securities included in Money Held in Trust are valued and classified according to the same methods described in “Loans and Bills Discounted” and “Securities” below.

Relevant notes concerning the fair value of Money Held in Trust of each classification are described in section 18. Fair Value of Money Held in Trust.

##### Securities

When unadjusted quoted prices are available in an active market, such securities are classified into Level 1 of the fair value hierarchy. Examples of Level 1 securities include listed equities and government bonds.

When quoted prices are available but not traded actively, such securities are classified into Level 2 of the fair value hierarchy.

Level 2 securities mainly include municipal bonds and corporate bonds. When quoted prices are not available, the Bank and its subsidiaries generally estimate fair values by using prices obtained from independent pricing vendors, or by using valuation technique such as Discount Cash Flow method. As for valuation, the Bank and its subsidiaries maximize the use of observable inputs. Inputs include default rates, recovery rates, prepayment rates and discount rates. Where significant inputs adopted to the fair value measurements for securities are unobservable, such securities are classified into Level 3 of the fair value hierarchy.

In addition to the factors mentioned above, probability of redemption or sale at net asset value are reflected on classification of the fair value hierarchy for Investment Trusts. Net asset value for certain Investment Trusts is adjusted by liquidity discount and such Investment Trust is classified into Level 3 of the fair value hierarchy.

### **Loans and Bills Discounted**

The fair value of Loans and Bills Discounted with floating rates approximates the book value since it is repriced reflecting market interest fluctuations within a short period, unless the creditworthiness of the debtors has changed significantly after execution. Accordingly, the book value is deemed to be the fair value. As for Loans and Bills Discounted with fixed rates, the fair value is calculated according to the Discounted Cash Flow method. The main inputs include the default rates based on the current credit rating of the debtors, recovery rates, and other inputs. As for mortgages, the fair value is calculated according to the Discounted Cash Flow method. The main inputs include the default rates, recovery rates, prepayment rates and other inputs.

As for Loans and Bills Discounted to doubtful debtors and others, the fair value is calculated by the present value of expected future cash flows or the estimated recovery amount of collateral and guarantee.

With respect to Loans and Bills Discounted without stated maturity for which credit is extended up to the value of the collateral assets, the book value is deemed to approximate the fair value, taking into account expected maturities, interest rates and other terms. All of Loans and Bills Discounted are classified into Level 3 of the fair value hierarchy since significant inputs for the assets are unobservable.

## **Liabilities**

### **Deposits**

With respect to demand deposits, the amounts payable on demand as of the consolidated balance sheet date (the book value) are estimated at fair value and classified into Level 2 of the fair value hierarchy. The fair value of time deposits with floating rates approximates the book value since it is repriced reflecting market interest rate fluctuations within a short period (1 year or less), unless the creditworthiness of the Bank and its consolidated subsidiaries has changed significantly. Accordingly, the fair value is deemed to be the book value. Therefore, deposits with floating rate is classified into Level 2 of the fair value hierarchy. As for time deposits with fixed rates, the fair value is calculated according to the Discounted Cash Flow method, and these discount rates are the currently-applied deposit rates or interest rates with a certain adjustment made to market interest rates. Where unobservable inputs have a significant impact on the fair value for deposits with fixed rates, the instrument is classified into Level 3 of the fair value hierarchy. Where not, the instrument is classified into Level 2 of the fair value hierarchy. Some contractual terms are short-term (1 year or less), and the fair value approximates the book value. Accordingly, the fair value is deemed to be the book value. Such deposits is classified into Level 2 of the fair value hierarchy.

### **Debentures**

As for Debentures, the fair value is based on the quoted market price if available, or calculated according to the Discounted Cash Flow method. The main input of this method is the rate which would be applied if a similar debenture was issued. Debentures are classified into Level 2 of the fair value hierarchy considering the market liquidity for those.

### **Borrowed Money**

The fair value of Borrowed Money with floating rates approximates the book value since it is repriced reflecting market interest rate fluctuations within a short period (1 year or less), unless the creditworthiness of the Bank and its consolidated subsidiaries has changed significantly. Accordingly, the book value is deemed to be the fair value. Therefore, Borrowed Money with floating rate is classified into Level 2 of the fair value hierarchy.

As for Borrowed Money with fixed rates, the fair value is calculated according to the Discounted Cash Flow method. The input of this method is the interest rate which would be applied to a similar borrowed money. Where unobservable inputs have a significant impact on the fair value for Borrowed Money with fixed rates, the instrument is classified into Level 3 of the fair value hierarchy. Where not, the instrument is classified into Level 2 of the fair value hierarchy. The fair value of the Borrowed Money within a year or less with fixed rates approximates the book value and then the fair value is deemed to be the book value. Such Borrowed Money is classified into Level 2 of the fair value hierarchy.

### Derivative Instruments

When unadjusted quoted prices are available for Derivative instruments in an active market, such instruments are classified into Level 1 of the fair value hierarchy. Examples of these Derivative instruments include Bond Futures, Interest Rate Futures and others.

Where quoted market price is unavailable, the Bank estimates fair values for Derivative instruments by a net present value method, an option pricing model and other methods as appropriate. Main inputs used by valuation methods mentioned above are interest rates, foreign currency exchange rates, volatility and other variables. Further, the fair value for derivative instruments such as Swap and others is reflected on the price adjustment based on credit risk of counter parties and the Bank itself. Where unobservable inputs are not adopted or their impact is not significant on the fair value for Derivative instruments, such derivative instruments are classified into Level 2 of the fair value hierarchy. Derivatives that are evaluated using valuation techniques with significant unobservable inputs are classified into Level 3 of the fair value hierarchy.

Relevant notes regarding the fair value of derivative instruments are described in section 19. Fair Value of Derivative Instruments.

(Notes 2) The Fair value of Level 3 for financial instruments recorded at fair value on the consolidated balance sheet is as follows

2. These are transfers from the fair value of Level 3 to that of Level 2. This is because observability of inputs used by calculating fair values has been improved. This transfer is implemented at the end of the period.

### Explanation of Market Value Evaluation Process

Supervisory Department for Fair Value Measurement in the Bank establishes guidelines and procedures for fair value and Fair Value Measurement Department calculates fair value in compliance with these guidelines and procedures. Assessment Department, which is independent from Fair Value Measurement Department verifies appropriateness of the calculation result of fair value, and the result of the verification is reported in the Risk Management Committee. Thus, the Bank confirms the appropriateness of guidelines and procedures for fair value measurement.

Moreover, as for fair value measurement, the Bank adopts pricing models which the most properly reflect on types, characteristics, and risks for individual financial instrument. Where market values obtained from independent pricing vendors are used, the Bank verifies the validity of the vendors' market values by means of appropriate approaches such as assessment of pricing models and inputs which the vendors adopt, comparison with fair values of similar financial instruments and others.

### Securities Recognized for Revaluation Loss

Securities other than those for trading purposes (except Stocks and others with no market prices and Investments in Partnership) are revalued to their fair value, and the difference between the book value and the fair value is treated as a realized loss for the six months ended September 30, 2024 and the fiscal year ended March 31, 2024 (“revaluation loss”), if the fair value has significantly deteriorated from the book value unless a recovery in the fair value is deemed probable.

The amount of revaluation loss for the six months ended September 30, 2024 was ¥6,679 million (\$46 million), including ¥2,699 million (\$18 million) on Bonds (Corporate Bonds) and ¥3,979 million (\$27 million) on Investment Trusts.

The amount of revaluation loss for the fiscal year ended March 31, 2024 was ¥4,377 million, including ¥4,377 million on Investment Trusts.

The criteria for determining whether the securities’ fair value has “significantly deteriorated” are outlined as follows:

Securities whose fair values are equal to or less than 50% of their book value

Securities whose fair values remain between 50% (exclusive) and 70% (inclusive) of their book value for a certain period

# Capital Adequacy (Consolidated)

## Disclosure Regarding Capital Adequacy and Features of Regulatory Capital Instruments

The Norinchukin Bank (the “Bank”) calculates its capital adequacy ratio based on the formula contained in Notification No. 4 of the 2006 Financial Services Agency and the Ministry of Agriculture, Forestry and Fisheries of Japan entitled “Standards for Judging the Soundness of Management of The Norinchukin Bank” (hereinafter, “Notification Regarding Capital Adequacy Ratio”). In addition, to calculate risk-weighted assets for credit risk,

the Bank has adopted the “Advanced Internal Ratings-Based Approach (A-IRB) (partially the Foundation Internal Ratings-Based Approach (F-IRB)).”

The disclosure requirements for the Bank are provided in Notification No. 6 of the 2007 Financial Services Agency and the Ministry of Agriculture, Forestry and Fisheries of Japan entitled “Disclosure Items Related to Capital Adequacy of The Norinchukin Bank” (hereinafter, “Disclosure Notification”). These disclosures as well as the features of regulatory capital instruments can be found in the IR Library of the Bank’s website at <https://www.nochubank.or.jp/en/>.

## Remarks on Computation of the Consolidated Capital Adequacy Ratio

### Scope of Consolidation

- Reason for discrepancies between companies belonging to the Bank’s group that are required to compute a consolidated capital adequacy ratio, as specified in the Notification Regarding Capital Adequacy Ratio, Article 3 (hereinafter, “the Consolidated Group”) and the companies included in the scope of consolidation, based on “Ordinance on Terminology, Forms and Preparation Methods of Consolidated Financial Statement” under Ministerial Ordinance No. 28, issued by the Ministry of Finance in 1976:

Not applicable

- As of September 30, 2024, the Bank had 23 consolidated subsidiaries and firms. The names and principal lines of business of the primary subsidiaries are as follows:

1. Norinchukin Trust & Banking Co., Ltd.: Trust and banking business
2. Kyodo Housing Loan Co., Ltd.: Loans and guarantees for housing

- Companies belonging to the Consolidated Group but not included in the scope of consolidation:

Not applicable

- Companies not belonging to the Consolidated Group but included in the scope of consolidation:  
Not applicable
- Affiliated companies engaged in financial service business that were subject to the provisions of Article 9 of the Notification Regarding Capital Adequacy Ratio:  
Not applicable
- Restrictions on the transfer of funds and capital between the members of the Consolidated Group:  
Not applicable

### Companies with Less than the Regulatory Required Capital and the Amount of Shortfall

With regard to the group companies that are subject to capital deduction, as provided for in the Notification Regarding Capital Adequacy Ratio, the names of those companies whose capital is less than the regulatory required capital and the total amount of shortfall in their capital:

Not applicable

Notes: 1. Assets subject to the Standardized Approach are a) equity exposure; b) the on-balance and off-balance sheet assets of the Bank's consolidated subsidiaries, with the exception of IRB approach-applied subsidiaries; and c) the suspense payments and prepaid expenses on the consolidated balance sheet of the Bank and IRB approach-applied subsidiaries.

2. The total of the credit risk assets subject to the Standardized Approach (above b+c), excluding equity exposure, is ¥376.1 billion. Because this amount is extremely limited, being only about 1.73% of the credit risk assets on a consolidated basis (¥21,717.7 billion), a statement concerning the assets subject to the Standardized Approach excluding equity exposure is omitted here.

## Exposure Subject to Risk-Weighted Asset Calculation for Investment Funds (Consolidated)

### Amount of Exposure Subject to Risk-Weighted Asset Calculation for Investment Fund

(Billions of Yen)

Items	As of September 30, 2024	As of September 30, 2023
	Exposure	Exposure
Look-through approach	142,441	183,941
Mandate-based approach	—	—
Simple approach (subject to 250% RW)	—	—
Simple approach (subject to 400% RW)	287	328
Fall-back approach (subject to 1250% RW)	559	658
<b>Total</b>	<b>143,288</b>	<b>184,928</b>

Notes: 1. The “Look-through approach” is a computation method if the exposure-related information on the underlying assets for the retained exposure meets all the following requirements. Using this approach, the credit risk asset amount of the retained exposure is calculated by multiplying the amount of the retained exposure by the ratio that is obtained by dividing “the total amount of credit risk-weighted assets including such underlying assets” by “the total amount of assets held by the business entity that actually holds such underlying assets.” (Please refer to Notification Regarding Capital Adequacy Ratio, Article 144-2.)

1. The information of assets have been acquired appropriately and frequently.

2. The related information has been inspected and verified by an independent third party.

2. The “Mandate-based approach” is a computation method used when credit risk asset amounts cannot be computed using the “Look-through approach.” If clarified asset management criteria are available, using this approach, the credit risk asset amount of the retained exposure is calculated by multiplying the amount of the retained exposure by the ratio that is obtained by dividing the “maximized total amount of the credit risk-weighted assets including the underlying assets for the retained exposure based on such asset management criteria” by “the total amount of assets held by the business entity that actually holds such underlying assets.” (Please refer to Notification Regarding Capital Adequacy Ratio, Article 144-7.)

3. The “Simple approach” is a computation method applied in the case the requirements for neither the “Look-through approach” nor the “Mandate-based approach” can be met. In this approach, if the purported risk weight of retained exposure is deemed to be highly probable at the probability level listed below based on the explanation and information provided, the purported risk weight is used to compute the credit risk asset amount of the retained exposure. (Please refer to Notification Regarding Capital Adequacy Ratio, Article 144-10.)

1. 250% or below: 250%

2. More than 250% and 400% or less: 400%

4. The “Fall-back approach (subject to 1250% RW)” is a method for computing credit risk asset amounts using 1250% risk weight in case none of the requirements of the “Look-through approach,” “Mandate-based approach” or “Simple approach” can be met. (Please refer to Notification Regarding Capital Adequacy Ratio, Article 144-11.)

## Interest Rate Risk in the Banking Book (Consolidated)

8	Tier 1 capital	5,721,731		5,562,206	

Note: Interest risk measurements are conducted as to the non-consolidated and consolidated subsidiaries that retain more than a certain level of interest rate risk.

## Macprudential Supervisory Measures

### CCyB1: Geographical distribution of credit exposures used in the countercyclical capital buffer

For the Six Months Ended September 30, 2024

(Millions of Yen, %)

Geographical breakdown	a	b	c	d
	Countercyclical capital buffer rate	The amount obtained by adding the total amount of risk-weighted assets used in the computation of the countercyclical buffer and the total amount of market risk equivalent to default risk divided 8%	Bank-specific countercyclical capital buffer rate	Countercyclical buffer amount
Luxembourg	0.50%	123,831		
Hong Kong (China)	1.00%	65,027		
Sweden	2.00%	33,429		
U.K.	2.00%	1,139,261		
Australia	1.00%	698,472		
Germany	0.75%	144,829		
Netherlands	2.00%	384,182		
France	1.00%	220,801		
Belgium	0.50%	29,750		
South Korea	1.00%	60,816		
Subtotal		2,900,405		
Total		18,395,384	0.23%	59,101

Note: As to geographic allocation methods for the amounts of credit risk-weighted assets, the location of each project of direct investments or fund and securitization products with which the look-through of the underlying assets is possible is defined as the ultimate country bearing the risk. Regarding fund and securitization products with which it is difficult to "look-through" the underlying assets, the ultimate risk-bearing country is allocated based on the asset management criteria and other factors.

For the Six Months Ended September 30, 2023

(Millions of Yen, %)

Geographical breakdown	a	b	c	d
	Countercyclical capital buffer rate	Risk-weighted assets used in the computation of the countercyclical buffer	Bank-specific countercyclical capital buffer rate	Countercyclical buffer amount
Luxembourg	0.50%	183,058		
Hong Kong (China)	1.00%	60,152		
Sweden	2.00%	41,006		
U.K.	2.00%	1,263,194		
Australia	1.00%	707,089		
Germany	0.75%	241,783		
Netherlands	1.00%	553,015		
France	0.50%	378,270		
Subtotal		3,427,571		
Total		25,376,607	0.17%	52,164

Note: As to geographic allocation methods for the amounts of credit risk-weighted assets, the location of each project of direct investments or fund and securitization products with which the look-through of the underlying assets is possible is defined as the ultimate country bearing the risk. Regarding fund and securitization products with which it is difficult to "look-through" the underlying assets, the ultimate risk-bearing country is allocated based on the asset management criteria and other factors.

## Qualitative Disclosure Items Concerning a Liquidity Coverage Ratio on a Consolidated Basis

### Items concerning a change in the consolidated liquidity coverage ratio on a time-series basis

The consolidated liquidity coverage ratio has shown generally stable progress for the past two years.

### Items concerning evaluation of the level of the consolidated liquidity coverage ratio

The consolidated liquidity coverage ratio has tended to be well above the required level.

The future consolidated liquidity coverage ratio is not predicted to differ substantially from the disclosed ratio.

The actual value of the consolidated liquidity coverage ratio does not differ substantially from the initial forecast.

### Items concerning the details of the sum of high-quality liquid assets that can be included

In light of the Bank's consolidated liquidity coverage ratio, there is no material item.

### Other items concerning the consolidated liquidity coverage ratio

The Bank has not adopted the "Special case related to qualifying operational deposits" and the "Additional amount of collateral required at the time of scenario approach-based changes in fair value."

Considering the impact on the Bank's consolidated liquidity coverage ratio, with regard to immaterial consolidated subsidiaries with restrictions on practical operation, it is possible that daily data are not used.

## Qualitative Disclosure Items Concerning a Net Stable Funding Ratio on a Consolidated Basis

### Items concerning a change in the consolidated net stable funding ratio on a time-series basis

The consolidated net stable funding ratio has shown stable progress for the past three years.

### Items concerning exceptional treatment regarding interdependent assets and liabilities

“Exceptional treatment regarding interdependent assets and liabilities” is not applied.

### Other items concerning the consolidated net stable funding ratio

The consolidated net stable funding ratio has tended to be well above the required level.

The future consolidated net stable funding ratio is not predicted to differ substantially from the disclosed ratio.

The actual value of the consolidated net stable funding ratio does not differ substantially from the initial forecast.

(Millions of Yen)

Basel III Template No.	Composition of capital disclosure	As of September 30, 2024	As of September 30, 2023	Remarks
	Directly issued qualifying common share capital plus related capital surplus and retained earnings	<b>5,953,203</b>	6,210,255	Directly issued qualifying common share capital plus related capital surplus and retained earnings (before adjusting cash dividends to be paid)
1a	Of which: capital and capital surplus	<b>4,801,277</b>	4,065,219	
2	Of which: retained earnings	<b>1,151,926</b>	2,145,036	
	Of which: other than the above	—	—	
31a	Directly issued qualifying Additional Tier 1 instruments plus related capital surplus of which: classified as equity under applicable accounting standards and the breakdown	—	—	

### 2. Intangible Assets

(1) Non-Consolidated Balance Sheet

(Millions of Yen)

Reference numbers	Non-Consolidated balance sheet items	As of September 30, 2024	As of September 30, 2023	Remarks
2	Intangible Fixed Assets	<b>56,581</b>	48,218	
	Income taxes related to above	—	(13,380)	

## (2) Composition of Capital

(Millions of Yen)

Basel III Template No.	Composition of capital disclosure	As of September 30, 2024	As of September 30, 2023	Remarks
8	Intangible assets: goodwill	—	—	
9	Intangible assets: other	56,581	34,837	Other intangible assets other than goodwill and mortgage servicing rights
	Intangible assets: mortgage servicing rights	—	—	
20	Amount exceeding the 10% threshold on specified items	—	—	
24	Amount exceeding the 15% threshold on specified items	—	—	
74	Mortgage servicing rights that are below the thresholds for deduction (before risk weighting)	—	—	

## 3. Defined-benefit Pension Fund Net Assets (Prepaid Pension Costs)

## (1) Non-Consolidated Balance Sheet

(Millions of Yen)

Reference numbers	Non-Consolidated balance sheet items	As of September 30, 2024	As of September 30, 2023	Remarks
3	Defined-benefit pension fund net assets (prepaid pension costs)	13,421	7,415	
	Income taxes related to above	—	(2,057)	

## (2) Composition of Capital

(Millions of Yen)

Basel III Template No.	Composition of capital disclosure	As of September 30, 2024	As of September 30, 2023	Remarks
15	Defined-benefit pension fund net assets (prepaid pension costs)	13,421	5,357	

## 4. Deferred Tax Assets

## (1) Non-Consolidated Balance Sheet

(Millions of Yen)

Reference numbers	Non-Consolidated balance sheet items	As of September 30, 2024	As of September 30, 2023	Remarks
4-a	Deferred Tax Assets	—	729,500	
4-b	Deferred Tax Assets for Land Revaluation	—	1,600	
4-c	Deferred Tax Liabilities	58,519	—	
4-d	Deferred Tax Liabilities for Land Revaluation	646	—	
	Intangible assets to which tax-effect accounting was applied	—	13,380	
	Net defined-benefit asset to which tax-effect accounting was applied	—	2,057	

## (2) Composition of Capital

(Millions of Yen)

Basel III Template No.	Composition of capital disclosure	As of September 30, 2024	As of September 30, 2023	Remarks
10	Deferred tax assets that rely on future profitability excluding those arising from temporary differences (net of related tax liability)	—	—	This item does not agree with the amount reported on the Non-Consolidated balance sheet due to offsetting of assets and liabilities.
	Deferred tax assets arising from temporary differences (net of related tax liability)	—	746,539	This item does not agree with the amount reported on the Non-Consolidated balance sheet due to offsetting of assets and liabilities.
21	Amount exceeding the 10% threshold on specified items	—	299,829	
25	Amount exceeding the 15% threshold on specified items	—	—	
75	Deferred tax assets arising from temporary differences that are below the thresholds for deduction (before risk weighting)	—	446,710	

## 5. Deferred Gains or Losses on Derivatives under Hedge Accounting

(1) Non-Consolidated Balance Sheet

(Millions of Yen)

Reference numbers	Non-Consolidated balance sheet items	As of September 30, 2024	As of September 30, 2023	Remarks
5	Net Deferred Losses on Hedging Instruments	(210,654)	100,352	

(2) Composition of Capital

(Millions of Yen)

Basel III Template No.	Composition of capital disclosure	As of September 30, 2024	As of September 30, 2023	Remarks
11	Deferred gains or losses on derivatives under hedge accounting	(191,774)	(27,139)	Excluding those items whose valuation differences arising from hedged items are recognized as "Accumulated other comprehensive income"

## 6. Items Associated with Investments in the Capital of Financial Institutions

(1) Non-Consolidated Balance Sheet

(Millions of Yen)

Reference numbers	Non-Consolidated balance sheet items	As of September 30, 2024	As of September 30, 2023	Remarks
6-a	Securities	38,374,123	44,431,930	
6-b	Money Held in Trust	8,533,445	10,557,219	

(2) Composition of Capital

(Millions of Yen)

Basel III Template No.	Composition of capital disclosure	As of September 30, 2024	As of September 30, 2023	Remarks
	Investments in own capital instruments	—	—	
16	Investments in own shares (excluding those reported in the Net Assets section)	—	—

## Qualitative Disclosure Items Concerning a Liquidity Coverage Ratio on a Non-Consolidated Basis

### Items concerning a change in the non-consolidated liquidity coverage ratio on a time-series basis

The non-consolidated liquidity coverage ratio has shown generally stable progress for the past two years.

### Items concerning evaluation of the level of the non-consolidated liquidity coverage ratio

The non-consolidated liquidity coverage ratio has tended to be well above the required level.

The future non-consolidated liquidity coverage ratio is not predicted to differ substantially from the disclosed ratio.

The actual value of the non-consolidated liquidity coverage ratio does not differ substantially from the initial forecast.

### Items concerning the details of the sum of high-quality liquid assets that can be included

In light of the Bank's non-consolidated liquidity coverage ratio, there is no material item.

### Other items concerning the non-consolidated liquidity coverage ratio

The Bank has not adopted the "Special case related to qualifying operational deposits" and the "Additional amount of collateral required at the time of scenario approach-based changes in fair value."

## Voting Rights of Members

The Norinchukin Bank is the central financial institution for Japan's agricultural, fishery and forest owners' cooperative system. The supreme management decision-making organization for the Bank is basically the Council of Delegates, which consists of representative members and substitutes for the general meetings of all shareholders. Unlike stock companies, where one share represents one vote, the voting rights of the members of the Council of Delegates are equal in principle regardless of the number of investment units they own. For this reason, a list of major shareholders has not been included in this report.
