Detail of contracts

[Line 7] Voting rights of the members are equal in principle regardless of the number of investment units they own.

[Line 18] The dividend yield of lower dividend rate stock is set below that of common stock. Lower dividend rate stock is considered as the same priority as common stock in terms of dividend payment.

Detail of contracts

[Line 15(7) and 16] Except in the case of Loss-absorbing event, Effectively bankruptcy event, Commencement of bankruptcy filing event (as defined in the footnote for Line 31) or the breach of Subordinate clause of the contract (when the Bank files for bankruptcy, civil rehabilitation or is in the bankruptcy filing under non-Japanese laws), the Bank can redeem perpetual subordinated loans subject to the in-advance approval from Japanese competent regulatory authorities and the notification to holders at least one month before the date of redemption.

[Line 15(8)] Except in the case of Loss-absorbing event, Effectively bankruptcy event, Commencement of bankruptcy filing event or the breach of Subordinate clause of the contract, if any of the following conditions listed below is applied, the Bank can redeem perpetual subordinated loans subject to the in-advance approval from Japanese competent regulatory authorities and the notification to holders at least one month before the date of redemption.

- · Regulatory event: when the Bank concludes that perpetual subordinated loans might not or would not be counted as Additional Tier1 capital based on the regulatory capital regulations as a result of consultation with Japanese competent regulatory authorities
- Tax event: when the Bank faces with significant tax disadvantage due to Japanese laws, the application of the laws and/or interpretations of the laws

[Line 31] Each of the described events is defined as follows.

· Loss-absorbing conversion event: an event when the Bank's consolidated or non-consolidated CET1

capital ratio falls below 5.125%, except in the case that the Bank submits to and receive approval from Japanese competent regulatory authorities – by the time of regulatory reporting and disclosure – a plan which is highly likely to increase both consolidated and non-consolidated CET1 ratios above 5.125% without a write-down of the perpetual subordinated loans.

- · Effectively bankruptcy event: either of the following events.
 - 1. When Japanese competent regulatory authorities recognize (i) that there is a risk of extremely serious impediment to the financial stability in Japan or in the area where The Norinchukin Bank operates unless the crisis response measures defined in the Agricultural and Fishery Cooperative Savings Insurance Act are implemented, and (ii) that there is a risk of savings refund suspension by the Bank or that the Bank determines savings refund suspension or its inability to make full payment of its debts.
- 2. When Japanese competent regulatory authorities recognize the same or similar reasons as those above based on valid legislation at that time.
- · Commencing bankruptcy filing event: an event when Japanese court judges to commence the bankruptcy filing or civil rehabilitation filing of the Bank, or when foreign courts judge to commence the bankruptcy filing, civil rehabilitation filing, or similar filings of the Bank based on non-Japanese laws.

[Line 34] During the temporary write-down phase, the write-up can be exercised when both of the following are realized. (1) Japanese competent regulatory authorities confirm that the Bank maintains both non-consolidated and consolidated CET1 capital ratios sufficiently high even after the write-up, and (2) the Bank determines at its own discretion the elimination of the exemption for principal payment obligations.
