JA Bank = JA + JA Shinnoren + The Norinchukin Bank

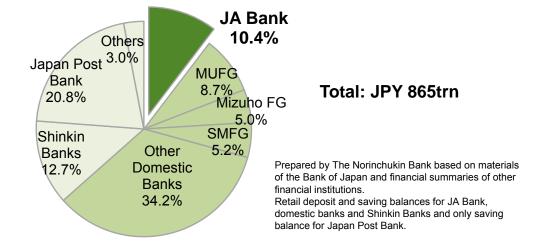

Flow of Funds in JA Bank (As of Sep. 30, 2018)

Total funds under management of JA Bank* JPY 160 trn

JA Bank accounts for 10% of the total amount of retail deposits and savings in the Japan.

Retail Deposits and Savings in Japan (As of Mar. 31, 2018)

Increasing amount of deposits and savings of JA Bank

JA Bank Deposits and Savings (JPY trillion)

^{*} Total funds under management (JPY trn) = Funds under management – Deposits

Assessment of Capital and Liquidity Adequacy

The Bank establishes risk appetite and implements Internal Capital Adequacy Assessment Process (ICAAP) and Individual Liquidity Adequacy Assessment (ILAA) as a board-level management framework of the two most important elements for financial institutions so that it can manage profits, capital and risk in a consistent and efficient manner, securing adequate level of liquidity.

Risk Appetite

- In implementing the Bank's strategies, risk appetite reflects specific views on risk-taking, and defines what types of risks and magnitude of risk the Bank is willing to accept
- Risk appetite is established to manage the Banks' business strategies, risk and capital in a consistent framework, and to clarify the tolerable level of liquidity which enables the Bank's strategic risk-taking

ILAA

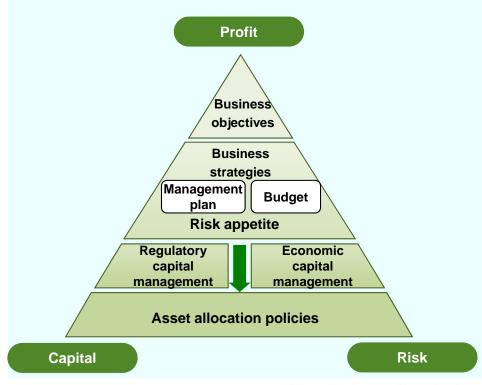

- A framework for assessing the sufficiency of liquidity and appropriateness of liquidity risk management to support strategic risk-taking for profits

ICAAP

 A process for demonstrating the appropriate management of risks that a company is facing so that it can achieve its business objectives, and for the appropriate maintenance and control of a sufficient level of internal capital to cover these risks

ICAAP: Internal Capital Adequacy Assessment Process

Risk Management System

The Bank has employed an "integrated risk management" system with a central focus on economic capital management.

Board of Directors

1. Board of Directors

- The Board of Directors sets business objectives in the form of medium-term management plans, risk appetite, management plans and budgets based on them. It also determines a risk management framework for their implementation.
- Based on feedbacks from internal and external audits, the board keeps track of the risk management regimes.

2. Management Committees

- The Risk Management Committee discusses and determines important issues associated with the management of economic and regulatory capital and the handling of respective risks.
- Based on the determination, each relevant committee, such as the Portfolio Management Committee, sets concrete portfolio management policies.

3. Risk Management

- As part of its integrated risk management efforts, the Bank has established individual units to watch over market risk, credit risk, liquidity risk and operational risk as well as a unit to supervise such units. Their roles and responsibilities have been clearly defined.
- Through its integrated risk management efforts, the Bank, under its risk management framework, has established its financial management practices flexible enough to ensure that it maintains sound and profitable business performance and, at the same time, to strike an optimal balance among risk, profit, and capital in volatile markets and in constantly changing economic and financial environments.

Corporate Brand

■ Brand Statement

Our work at The Norinchukin Bank won't change the world overnight.

Our focus is on the agriculture, fishery and forestry industries. This means that nature is our partner, and nothing in nature bears fruit overnight. Industries in this sector don't make things

—they produce and nurture life as a legacy for future generations.

This is precisely why we are dedicated to serving those who sustain these industries and their local communities, no matter how small the scale of their operations. As the financial institution wholly devoted to this sector—the very cornerstone of our nation, we strive consistently to generate solid outcomes in the global financial markets.

Our history spans more than 90 years.

But that alone is no longer enough.

We must take on a greater role than ever before
if this sector is to continue developing in response to the changing times.

We must harness our financial knowledge to make new contributions that extend beyond our past functions and scope. We must do our utmost to address on-the-ground issues. We must respond to the needs not only of producers, but also to those of processors, distributors and consumers.

The life generated by the agriculture, fishery and forestry industries sprouts the workings of all life well into the future.

Now is the time for each and every one of us to give our all. We aim to make the chain of life that connects us to the future more bounteous and more certain.

Dedicated to sustaining all life.

Logo

The landscape depicted here represents Japan itself where agriculture, fishery and forestry are connected to all life. The tapestry woven from the earth, the seas and the forests portrays the breath of life and the strength of will that carries each one of us forward, step by step. This is our logo, and it embodies the spirit of us all.

Our interpretation of "life"

The agriculture, fishery and forestry industries produce and nurture life as a legacy for future generations.

The Norinchukin Bank's mission of contributing to the development of the agriculture, fishery and forestry industries simply means contributing to handing down "life" as the blessings of the earth and the seas and the "life" of the people who enjoy such blessings to future generations.

3 Others

The Bank does not own any products related to ABCP, SIV, nor leveraged loans in its trading account and is not involved in any unconsolidated off-balance sheet transactions related to them as well as it has not originated, underwritten nor traded those products.

In addition, the Bank does not have a balance on loans internally defined as those used mainly for LBOs nor a balance on monoline wrapped financial instruments.

As of Sep 30, 2018, non-consolidated basis

⁽Note 1) Securitized products are internally defined based on the definition under the Basel capital framework. Does not include mortgage-backed securities related to US government sponsored entities.

⁽Note 2) The Bank does not have any exposure to sub-prime related RMBS or CDO in its investments in securitized products.

⁽Note 3) The Bank has little exposure (less than JPY0.1bn) to re-securitized products such as ABS-CDO, and CDO of CDO's.

The Bank does not have any exposure to re-securitized products (i.e. products containing at least one securitized product as an underlying asset) under the Basel capital framework.

⁽Note 4) The Bank has JPY6,097.7bn of mortgage-backed security bonds issued and guaranteed by Government National Mortgage Association and has JPY58.0bn of counterparty exposure of securities financing transactions with Federal Home Loan Mortgage Corporation.
